Discrete Simulation Guy Lee Curry, Bryan L. Deuermeyer, Richard Martin Feldman, 1989 *Proceedings of the 1998 Winter Simulation Conference* D. J. Medeiros, 1998 **Computer Security Journal**, 1990 Applied Probability and Stochastic Processes Richard Martin Feldman, Ciriaco Valdez-Flores, 1996 In this book Feldman and Valdez Flores present applied probability and stochastic processes in an elementary but mathematically precise manner with numerous examples and exercises to illustrate the range of engineering and science applications for the concepts The book is designed to give the reader an intuitive understanding of probabilistic reasoning in addition to an understanding of mathematical concepts and principles Unique features of the book include a self contained chapter on simulation Chapter 3 and early introduction of Markov chains *Fundamentals of Management Science* Efraim Turban, Jack R. Meredith, 1998 *Manufacturing Systems Modeling and Analysis* Guy L. Curry, Richard M. Feldman, 2010-11-10 This text presents the practical application of queueing theory results for the design and analysis of manufacturing and production systems This textbook makes accessible to undergraduates and beginning graduates many of the seemingly esoteric results of queueing theory In an effort to apply queueing theory to practical problems there has been considerable research over the previous few decades in developing reasonable approximations of queueing results This text takes full advantage of these results and indicates how to apply queueing approximations for the analysis of manufacturing systems Support is provided through the web site <http://msma.tamu.edu> Students will have access to the answers of odd numbered problems and instructors will be provided with a full solutions manual Excel files when needed for homework and computer programs using Mathematica that can be used to solve homework and develop additional problems or term projects In this second edition a separate appendix dealing with some of the basic event driven simulation concepts has been added TIMS/ORSA Bulletin Institute of Management Sciences, 1989 *Issues in Design/manufacture Integration*, 1991 American Society of Mechanical Engineers.
