Discrimination, Retirement, and Pensions Jagdish Handa, 1994 Uses a human capital approach which links the extent to which jobs require general or firm specific training with a firm's behaviour with regard to discrimination against women and in hiring older workers and the imposition of mandatory retirement and pension policies **Your Time Will Come** Lawrence M. Friedman, 1985-06-07 Age discrimination and its corollary mandatory retirement are modern legal issues barely a generation old In this concise and readable report Lawrence Friedman explores the apparently sudden emergence of a field of law that pertains mainly to the elderly and middle aged Friedman traces the brief but fascinating social legislative and judicial history of age discrimination law and of the laws addressing mandatory retirement Both histories contain paradoxes and contradictions both seem simultaneously to make an issue of age and to demand a kind of age neutrality reflecting broad recent changes in American culture Both histories are intricately bound up with other legal issues age discrimination with race and sex discrimination mandatory retirement with the development of pension plans and other social insurance systems Friedman speculates on the impact of these new laws illuminating through his analysis the complex phenomenon of legalization or the penetration of legal norms into ever more areas of life Finally Friedman offers a provocative conclusion in which he suggests that laws on age discrimination and retirement laws that appear to have a less extensive social background than one would expect may in fact be stand in laws for vague but powerful social norms not yet recognized in the legal system **Your Time Will Come** is the first new volume in a special paperback series entitled Social Research Perspectives Occasional Reports on Current Topics These Perspectives represent a revival of the Social Science Frontiers series published by the Foundation from 1969 to 1977 and will again offer short timely and accessible reports on various aspects of social science research A Volume in the Russell Sage Foundation's Social Science Perspectives Series **The Pension Game** United States.
