Discursive Strategies In Multicultural Business Meetings Linguistic Insights Studies In Language And Communication:

Discursive Strategies in Multicultural Business Meetings Gina Poncini, 2004-01-01 This book explores multiparty multicultural interaction at international business meetings It questions the role of cultural differences in approaching multicultural multilingual meetings and argues that organizational roles the business context and individual differences must also be considered Handbook of Business Communication Gerlinde Mautner, Franz Rainer, 2017-07-24 In spite of the day to day relevance of business communication it remains underrepresented in standard handbooks and textbooks on applied linguistics The present volume introduces readers to a wide variety of linguistic studies of business communication ranging from traditional LSP approaches to contemporary discourse based work and from the micro level of lexical choice to macro level questions of language policy and culture Discourse, Ideology and Specialized Communication Giuliana Garzone, Srikant Sarangi, 2008 This book approaches the issue of ideology in specialized communication in professional institutional and disciplinary settings across domains as diverse as law healthcare corporate management migration NGOs etc What unites the contributors is their commitment to a discourse view of language use i e the view that organisational and professional practices are rooted in social ideological orders although a variety of perspectives on the exact nature of the relationship between ideology and discourse can be discerned in individual chapters The acts of interpretation by participants and analysts alike are invested in ideology explicitly or implicitly This manifest hidden duality surrounding ideology in discourse constitutes the main focus Challenging the traditional presumption of objectivity impersonality and non involvement that has often characterized research on Language for Specific Purposes this book demonstrates how the specialized communication setting is a critical site where ideology is intrinsically embodied in discursive practices

Business Discourse Anna Trosborg, Poul Erik Flyvholm Jørgensen, 2005 The contributions to this volume together confirm that though context and culture are complex and difficult notions they are crucial to understanding the professional genres of modern business communication In today's globalised business environment professionals of all backgrounds are under pressure to employ new and different discourse standards to allow for smoother production and reception of business documents and dialogues In this changing environment the success of any commercial activity will depend on how competently business professionals respond to the cultural sensitivities and preferences of their partners Taking a variety of approaches to professional genres including customer complaints mission statements international contracts and decision making meetings the authors explore complex aspects of both cross cultural and interpersonal issues in business discourse and suggest practical applications of their analytical findings *Pragmatics at Work* María Pilar Navarro Errasti, Rosa Lorés Sanz, Silvia Murillo Ornat, 2004 This volume is a collection of eight articles on the general topic of translation The common element running through them all is the analysis of samples of tourist literature and their translations from a pragmatic point

of view The languages concerned are mainly English and Spanish but examples of German and French texts are also included The theoretical approaches are multifaceted Relevance theory systemic functional linguistics and discourse analysis are some of the theoretical standpoints taken as a background The book covers phenomena as varied as translation quality assessment audience design and perlocutionary effects dealing also with more specific features like thematic structure inference and propositional meaning discourse markers and grammatical metaphor in order to provide a wide range of analyses for the specialised reader *Intercultural Dialogue* Prue Holmes, Melinda Dooley, John O'Regan, 2017-10-02 Intercultural dialogue as

a concept and ideology in the European Union stimulates a rational 21st century society where people can engage in intercultural communication on a global scale and can do so openly and freely in conditions of security and mutual respect Intercultural dialogue connotes dialogic communication that is peaceful reconciliatory and democratic Yet the term and its accompanying rhetoric belie the intercultural communicative undercurrents and their manifestations that people encounter in their daily lives The research informed chapters in this book which are situated in international contexts provide more nuanced understandings and many even challenge this non critical ideology by suggesting that the concept of intercultural dialogue is inoperable and problematic under the present conditions of globalisation and migration where there exists conflict vulnerability and instability The different theoretical perspectives and analyses presented by the authors are a reminder that researchers in the field of intercultural communication require robust and appropriate theories methods and pedagogies in order to research these complex conditions and contexts particularly where different languages and identities are present The book is also a reminder of how context and power both re shape and contest the central tenets of intercultural dialogue in particular of who speaks for whom when how and under what circumstances and conditions This book was originally published as a special issue of *Language and Intercultural Communication* *Business Discourse*

Francesca Bargiela-Chiappini, Catherine Nickerson, B. Planken, 2013-07-25 This second edition reviews the field of business discourse centring on the investigation of business language and communication as practice It combines research based discussions with innovative practical applications and promotes debate and enquiry on a range of competing issues emerging from business discourse research and teaching practice **Anglia**, 2004 **The Decay of a Language** Silvia Dal
