

Discipline Framework

PBIS

- Positive behavioral interventions and supports (PBIS) is an approach schools use to promote school safety and good behavior.
- With PBIS, schools teach kids about behavior expectations and strategies.
- The focus of PBIS is prevention, not punishment.

PBIS Guiding Principles:

- Students can learn behavior expectations for different situations.
- Schools teach expected behaviors through explicit instruction, with opportunities for students to practice behavior and get feedback.
- Stepping in early can prevent more serious behavior problems.
- Each student is different, so schools need to give many kinds of behavior support.
- How schools teach behavior should be based on research and science.
- Tracking a student's behavior progress is important.
- Schools gather and use data to make decisions about behavior interventions.
- School staff members are consistent in how they encourage expected behavior and discourage misbehavior.
