**Discourse on colonialism** ,2007 *DISCOURSE OF COLONIALISM. AIME. CESAIRE, 2013* Colonialist discourse in The Tempest: Fact or myth Jenny Roch, 2005-05-11 Seminar paper from the year 2005 in the subject Didactics for the subject English Literature Works grade 15 20 University of Glasgow Department of English Literature course Shakespeare module 11 University of Glasgow language English abstract Ever since its publication in 1609 *The Tempest* has been a hugely appreciated play most probably on account of its ability to satisfy everyone s taste music and dancing action suspense comedy and love *The Tempest* has got it all But just as the play is enjoyable it is also complicated multilayered Recent criticism of the play especially since the 1950s has focused on the colonial discourse supposedly underlying the play Stephen Greenblatt for instance on the subject of Caliban argues that he is anything but a Noble Savage For James Smith he is one of the most obviously nightmarish figures in the play I have in the past six months seen two productions of *The Tempest* and never did it strike me as being a play infused with colonial discourse Although Shakespeare s interest in other cultures and exploring the exotic the other pervades the entire corpus of his work one should be careful about freely associating this curiosity of the unknown with colonial discourse whether deliberate or unintentional on Shakespeare s part or race writing In discussion of value Shakespeare is of course invariably treated as a special case having come to serve as something like the gold standard of English Literature Although this is a contestable statement in itself the aim of this essay is not to discuss the authority and reliability of Shakespeare as a playwright but to question the views which label *The Tempest* as a colonial post colonial proto colonial play There is no need to discuss the existence of othering in the play as this would be stating the

obvious Rather I would like to show that although many incidents in the play may invite a reader to a colonial reading of the text they can just as well be over interpretations and fall victim to a subjugation of a discourse foreign to Shakespeare's intentions

**Colonial Inventions** Amar Wahab, 2010-02-19 This book situates its contemplation of the nineteenth century Trinidadian landscape in the context of an emerging sub field of Caribbean postcolonial studies by connecting the visual representation and indexing of colonial landscapes and peoples with the making of colonial power Emphasis is placed on three pivotal image catalogues which span the pre and post emancipation periods and which connect the projects of British slavery and indentureship The book unearths sketches paintings lithographs and engravings and analyzes them as central to the iconic framing and disciplining of colonized subjects tropical nature and the plantation landscape Focusing on the image works of British travellers Richard Bridgens and Charles Kingsley and Creole artist Michel Jean Cazabon the chapters consider how an aesthetic logic was not only illustrative but constitutive of racialized and gendered scripts of colonial landscapes nature and identity While these various strands of aesthetic reasoning reveal a seemingly coherent operation of colonial power they also register the very ambiguity of these disciplinary projects in moments of uncertainty regarding the amelioration of African slavery the emancipation of slavery and the highly contested project of Indian indentureship in the Caribbean The book reflects the dynamic instability of colonial inventive projects manifest in a period of experimental and troubled British rule that potentially frustrates any attempt to recover the truth of Caribbean colonial reality

**Joyce: Feminism / Post / Colonialism**, 2021-11-15 James Joyce is located between and constructed within two worlds the national and international the political and cultural systems of colonialism and postcolonialism Joyce's political project is to construct a postcolonial contra modernity to write the incommensurable differences of colonial postcolonial and gendered subjectivities and in doing so to reorient the axis of power and knowledge What Joyce dramatizes in his hybrid writing is the political and cultural remainder of imperial history or patriarchal canons a remainder that resists assimilation into the totalizing narratives of modernity Through this remainder of both politics and the psyche Joyce reveals how a minority culture can construct political and personal agency Joyce

industry and the development of a WiFi landscape Using examples of cities such as New York Sydney Atlantic City Barcelona Rio de Janeiro Douala Liverpool San Juan Berlin and Harbin this book illustrates how image and practice have become entangled in the performance of the symbolic economy It also argues that it is not just how the urban present is being shaped in this way that is significant to the development of cities but also that a prominent feature of their development has been the spectacular imagining of the past as heritage and through regeneration Yet the ghosts that this conjures up in practice offer us a possible form of political unsettlement and alternative ways of viewing cities that is only just beginning to be explored Through this important collection by some of the leading analysts of consumption cities and space Consuming the Entrepreneurial City offers a cutting edge analysis of the ways in which cities are developing and the implications this has for their future It is essential reading for students of Urban Studies Geography Sociology Cultural Studies Heritage Studies and Anthropology
