Descartes,1993-10-01 Descartes's Meditations on First Philosophy the fundamental and originating work of the modern era in Western philosophy is presented here in Donald Cress's completely revised edition of his well established translation bringing this version even closer to Descartes's original while maintaining its clear and accessible style Meditations on First Philosophy René Descartes,1993 Many other matters respecting the attributes of God and my own nature or mind remain for consideration but I shall possibly on another occasion resume the investigation of these Now my principal task is to endeavour to emerge from the state of doubt into which I have these last days fallen Meditations, Objections, and Replies René Descartes,2006-03-30 This edition features reliable accessible translations useful editorial materials and a

straightforward presentation of the Objections and Replies including the objections from Caterus Arnauld and Hobbes accompanied by Descartes replies in their entirety The letter serving as a reply to Gassendi in which several of Descartes associates present Gassendi's best arguments and Descartes replies conveys the highlights and important issues of their notoriously extended exchange Roger Ariew's illuminating Introduction discusses the Meditations and the intellectual environment surrounding its reception *A Student's Search for Meaning* Melissa Carter,James Fraser,Chelsea Garbell,Amy Wilson,2023-11-25 This edited volume brings together reflections on how students pursue the search for meaning and purpose in the context of higher education It offers perspectives from humanities professors college chaplains of multiple faiths and observers of the changing shape of the American university as each considers the needs and expectations of today's students The collection address three key lines of inquiry what the student search for meaning looks like in the context of higher education how do presenters understand the dimensions of the search for meaning itself and how do or don't humanities faculty and religious life leaders talk to each other around the common student concerns addressed in both

course work and the extracurricular world of religious life programs Together the conversation suggests that students pursue a search for meaning in the context of university life and the academic curriculum but the particular dimensions of this search are yet undefined This is often a contested pursuit because it conflicts with the other purposes of the university which some see as primary A key audience for this book is university administrators who work in the field of chaplaincy and faith based programming as well as department chairs and faculty in the liberal arts who are directly involved in building humanities curriculum

Berkeley Damian Ilodigwe, 2020-06-12 Berkeley is popular in the philosophical tradition as the philosopher who denied the existence of matter in favour of spiritual substance His *esse est percipi* thesis is understandably seen as a recipe for subjective idealism While there is a point to this reading of Berkeley it remains to be seen whether it does justice to the full significance of Berkeley's opposition to philosophical materialism In this book essentially a sympathetic reconstruction of Berkeley's philosophy Ilodigwe approaches Berkeley's Immaterialism from the standpoint of the philosophical issues raised by the emergence of modern science in the seventeenth century He argues that when approached in this manner Berkeley's opposition to philosophical materialism not only emerges as an attempt to overcome false abstractions but it also becomes possible to make sense of his claimed alliance with common sense in his battle against philosophical materialism While the realist portrait of Berkeley that emerges from this exercise is not free from difficulties it arguably offers us a fuller conspectus of Berkeley's philosophy of immaterialism

Thinking Philosophically David Roochnik, 2016-01-20 *Thinking Philosophically* An Introduction to the Great Debates presents a highly accessible introduction to five of the most fundamental debates in world philosophy Introduces five fundamental philosophical debates in a highly engaging and accessible manner that invites readers to enter the discussion themselves Features chapters that each consider a central philosophical question dialectically by exploring the conflicting approaches of different philosophers Argues that the work of philosophers like Plato and Rousseau is just as relevant today as it was in their own time Provides a structure that encourages readers to apply philosophical principles to their everyday lives

Tolerance and the Ethical Life Andrew Fiala, 2005-05-12 In a fresh and exciting way this new book shows how tolerance connects with the practice of philosophy Andrew Fiala examines the virtue of tolerance as it appears in several historical contexts Socratic philosophy Stoic philosophy Pragmatism and Existentialism The lesson derived is that tolerance is a virtue for what Fiala calls tragic communities Such communities are developed when we come together across our differences but they lack the robust sense of connection that we often seek with others the complete sort of happiness that is offered by a more utopian ideal of community But rather than viewing this conclusion as a failure Fiala maintains that tragic communities are the best communities possible for human beings who are aware of their own individuality and finitude Indeed they are typical of the sorts of communities created by philosophers engaged in dialogue with others *Tolerance and the Ethical Life* will strongly appeal to specialists and upper level students in Ethics and Political Philosophy both for its unique historical exploration of

tolerance and its application of those results to present day moral theory **Cartesian Nightmare** Peter A. Redpath, 2022-06-08 This book challenges the presupposition among professional philosophers that Ren Descartes is the Father of Modern Philosophy It demonstrates by intensive textual analysis of Descartes s Discourse and Meditations that he inaugurated a new type of sophistry rather than a new way of conducting philosophy Transcendental Sophistry is a synthesis of Renaissance humanism and Christian theology especially the theology of creation This striking re evaluation of the achievement of Descartes opens the history of Western philosophy to radical reinterpretation **Discourse on Method ; And, Meditations on First Philosophy** René Descartes, 1993 Contains English translations of Descartes 1637 treatise Discourse on the Method for Conducting One s Reason Well and for Searching for Truth in the Sciences and a subsequent development of the ideas contained in it Meditations on First Philosophy first published in 1641 Includes a selected bibliography Annotation copyrighted by Book News Inc Portland OR Discourse on Method, Optics, Geometry, and Meteorology René Descartes, 2001 This volume preserves the format in which Discourse on Method was originally published as a preface to Descartes s writings on optics geometry and meteorology In his introduction Olscamp discusses the value of reading the Discourse alongside these three works which sheds new light on Descartes s method Includes an updated bibliography **Descartes: Philosophical Essays and Correspondence** René Descartes, 2000-03-15 A superb text for teaching the philosophy of Descartes this volume includes all his major works in their entirety important selections from his lesser known writings and key selections from his philosophical correspondence The result is an anthology that enables the reader to understand the development of Descartes s thought over his lifetime Includes a biographical Introduction chronology bibliography and index **Books in Print** , 1994 **Philosophy in 30 Days** Dominique Janicaud, 2005 Plunge straight in and try out philosophy for real in just ten minutes a day This book may not turn you into a great philosopher in thirty days but it will show you how to begin to think philosophically Dominique Janicaud s shows that philosophy doesn t have to be intimidating It can even be fun He invites the reader to consider some of the big questions of philosophy and develop the critical inquiring attitude which characterizes good philosophy With a chapter a day this is philosophy at its most accessible Each short chapter tackles a single question such as What is a human being What does freewill mean Is philosophy simply a matter of reading the famous works of the past Do we need religion What are good and evil Along the way we are introduced to some of the greatest thinkers of the past from Plato to Nietzsche **The Making and Unmaking of Technological Society** Murray Jardine, 2004 Our inability to make ethical sense of technology is at the root of a crisis This book advocates a Christianity that fully understands technology its responsibilities and its possibilities **The Journal of Philosophy** , 1997 **Paperbound Books in Print** , 1992 Heythrop Journal , 2001 A select book list appears quarterly
