Discovering Science Through Inquiry: Earth Systems and Cycles Kit Kathleen Kopp, 2010-07-14 The Discovering Science through Inquiry series provides teachers and students of grades 3-8 with direction for hands-on science exploration around particular science topics and focuses. The series follows the 5E model: engage, explore, explain, elaborate, evaluate. The Earth Systems and Cycles kit provides a complete inquiry model to explore Earth's various systems and cycles through supported investigation. Guide students as they make cookies to examine how the rock cycle uses heat to form rocks. Earth Systems and Cycles kit includes 16 Inquiry Cards in print and digital formats, Teacher's Guide, Inquiry Handbook. Each kit includes a single copy; additional copies can be ordered. Digital resources include PDFs of activities and additional teacher resources including images and assessment tools, leveled background pages for students, and video clips to support both students and teachers.

Discover Science: Robots Clive Gifford, 2011-08-16 First published in the Kingfisher young knowledge series 2003

Exploring Science June Mitchelmore, 1999-04 Useful for the first three years of Secondary school, this is a three-book series. It provides an introduction to the world of Science and is a helpful foundation for CXC separate sciences and CXC single award Integrated Science. Written in clear English, it is suitable for a range of abilities.

Progress in Discovery Science Setsuo Arikawa, Ayumi Shinohara, 2003-07-31 Annotation: This book documents the scientific outcome and constitutes the final report of the Japanese research project on discovery science. During three years, more than 60 scientists participated in the project and developed a wealth of new methods for knowledge discovery and data mining. The 52 revised full papers presented were carefully reviewed and span the whole range of knowledge discovery from logical foundations and inductive reasoning to statistical inference and computational learning. A broad variety of advanced applications are presented, including knowledge discovery and data mining in very large databases, knowledge discovery in network environments, text mining, information extraction, rule mining, Web mining, image processing, and pattern recognition.

Do and Discover Science, Grades PK - 1 Marilee Whiting Woodfield, 2010-06-11 Connect students in grades PK-1 with science using *Do and Discover Science*. This 64-page book features 15 lessons that demonstrate that science is a part of everyday life. Cross-curricular activities explore magnets, sink and float, gases and bubbles, rolling balls, and ramps, bugs and butterflies, plants, and the human body. This book challenges students to use higher thought processes, learn new vocabulary, and develop more complex language skills. All activities use common household items, and the book supports National Science Education Standards.
