Discovering the Scottish Revolution 1692-1746 Neil Davidson, 2003 **Discovering The Scottish Revolution 1692-1746** Neil Davidson, 2003-05-20 Leading Marxist thinkers re evaluate Trotsky s key theories an ideal introduction for students

A People's History of Scotland Chris Bambery, 2014-06-17 A People s History of Scotland looks beyond the kings and queens the battles and bloody defeats of the past It captures the history that matters today stories of freedom fighters suffragettes the workers of Red Clydeside and the hardship and protest of the treacherous Thatcher era With riveting storytelling Chris Bambery recounts the struggles for nationhood He charts the lives of Scots who changed the world as well as those who fought for the cause of ordinary people at home from the poets Robbie Burns and Hugh MacDiarmid to campaigners such as John Maclean and Helen Crawford This is a passionate cry for more than just independence but also for a nation based on social justice

Scotland in the Age of Two Revolutions Sharon Adams, Sharon Adams (Historian), Julian Goodare, 2014 The seventeenth century was one of the most dramatic periods in Scotland s history with two political revolutions intense religious strife culminating in the beginnings of toleration and the modernisation of the state and its infrastructure This book focuses on the history that the Scots themselves made Previous conceptualisations of Scotland s seventeenth century have tended to define it as falling between 1603 and 1707 the union of crowns and the union of parliaments In contrast this book asks how seventeenth century Scotland would look if we focused on things that the Scots themselves wanted and chose to do Here the key organising dates are not 1603 and 1707 but 1638 and 1689 the covenanting revolution and the Glorious Revolution Within that framework the book develops several core themes One is regional and local the book looks at the Highlands and the Anglo Scottish Borders The increasing importance of money in politics and the growing commercialisation of Scottish society is a further theme addressed Chapters on this theme like those on the nature of the Scottish Revolution also discuss central government and illustrate the growth of the state A third theme is political thought and the world of ideas The intellectual landscape of seventeenth century Scotland has often been perceived as less important and less innovative and such perceptions are explored and in some cases challenged in this volume Two stories have tended to dominate the historiography of seventeenth century Scotland Anglo Scottish relations and religious politics One of the recent leitmotifs of early modern British history has been the stress on the Britishness of that history and the interaction between the three kingdoms which constituted the Atlantic archipelago The two revolutions at the heart of the book were definitely Scottish even though they were affected by events elsewhere This is Scottish history but Scottish history which recognises and is informed by a British context where appropriate The interconnected nature of religion and politics is reflected in almost every contribution to this volume SHARON ADAMS is Postdoctoral Research Fellow at the University of Freiburg JULIAN GOODARE is Reader in History at the University of Edinburgh Contributors Sharon Adams Caroline Erskine Julian Goodare Anna Groundwater Maurice Lee Jnr Danielle McCormack Alasdair Raffe Laura Rayner Sherrilynn Theiss Sally

Tuckett Douglas Watt The Davidson Debate Neil Douglas Davidson, 2025-11-20 In the words of Mike Davis Neil Davidson's *How Revolutionary Were the Bourgeois Revolutions* 2012 resets the entire debate on the character of bourgeois democratic and socialist Epic in scale and nuanced in its address to a wide range of questions on the emergence of capitalism Davidson's book made a major contribution to understanding the historical character of political change The Davidson Debate brings Bridget Fowler's introduction to the debates with three important responses to the book by Dylan Riley Charles Post and Heide Gerstenberger as well as the authors long and sustained reply to his critics Supplementing and extending his earlier work this book represents an important further contribution to Marxist scholarship The Davidson debate will no doubt continue and this collection will play an important role in future discussion of the important questions it addressed **Discovering the Scottish Revolution 1692-1746** Neil Davidson, 2003-05-20 Winner of the the Deutscher Memorial Prize 2003 This book is a reassessment of Scottish politics and society in the late seventeenth and early eighteenth century Neil Davidson argues that Scotland experienced a revolution during this period that has rarely been recognised in the existing historiography Davidson explores the political and economic changes of these years revealing how social and economic power was transferred from one class to another He describes how Scotland was transformed from a backward and feudal economy to a new centre of emergent capitalism He traces the economic and social crisis that led to Scotland's incorporation into the Union in 1707 but argues that the Union did not lead to the transformation of Scottish society The decisive period was instead the aftermath of the last Jacobite revolt in 1746 whose failure was integral to the survival and consolidation of British and ultimately global capitalism **Scottish Presbyterians and the Act of Union 1707** Jeffrey Stephen, 2007 Focusing predominantly on the period between April 1706 and January 1707 the book examines the attitudes and reactions of Presbyterians to the treaty and challenges many of the widely held assumptions about the role of the church and other groups during the debate The Book Review Digest, 2005 **100 Years of Permanent Revolution** Bill Dunn, Hugo Radice, 2006-05-20 Leading Marxist thinkers re-evaluate Trotsky's key theories an ideal introduction for students

1956 and All that Keith Flett, 2007 Through the Smoke of Budapest 50 Years On The February 2006 Conference of the London Socialist Historians Group was held at the Institute of Historical Research in central London one of a series of such conferences over the previous ten years Assembled were a modest group of academics and activists come to mark the 50th anniversary of the events of 1956 and to do so in a particular way Firstly by presenting new historical research on the questions under review rather than trotting out tired orthodoxies Secondly by linking historical inquiry to political activism It was queried why such a conference was held in February 2006 rather than in the autumn and the answer was a simple one To intervene historically in the debates of the year by setting a socialist historical agenda for doing so The opening plenary heard from Sami Ramidani an Iraqi exile now lecturing at a British University from Stan Newens who had been present at the protests in 1956 and from Nigel Wilmott the letters editor of the Guardian but here speaking about Hungary The flavour was

one both of historical recall of the events of 1956 and of contemporary political parallels Indeed during this session news came through via text message that the left wing MP George Galloway had been detained in a Cairo jail overnight and an emergency protest called at the Egyptian Embassy for later in the day The next two sessions focused on the key moments of autumn 1956 Hungary and Suez but again with new research examining their wider significance Mike Haynes looks at the origins of the Hungarian revolt in terms of workplace politics while Anne Alexander reviews the impact that Suez had on Nasser's reputation within the Arab world and Arab nationalist politics In the afternoon there was a widening of the focus One session examined the impact of the events of 1956 on left wing organisation and in particular the orthodox Communist or Stalinist tradition Terry Brotherton took a fresh look at the impact of 1956 on the Communist Party of GB while Toby Abse focused on how the events of that year worked their way through in the largest of the Western European CPs the Italian Alan Woodward examined how the crisis of Stalinist politics opened new possibilities for libertarian left wing ideas The other focused on the rise of a new left as a result of the crisis of 1956 Paul Blackledge examined the development of the theory of socialist humanism by E P Thompson and others as an alternative to Stalinism Neil Davidson examined the ideas of a forgotten left wing thinker from this period Alisdair Macintyre while Christian Hogsberg reviewed the influence of an existing Trotskyist theorist CLR James around the events of 1956 Of course the conference could not hope to cover the huge range of possible historical issues arising from the 50th anniversary of 1956 The beginnings of the consumer society and the age of affluence the birth of youth culture and rock music British nuclear tests and the origins of CND and campaigns against the bomb the new theatre marked by look back in anger In an introduction the editor Keith Flett reviews some of these wider trends However the research agenda proposed by the conference was and remains an important one

The Price of Scotland Douglas Watt, 2007 Watt offers a fascinating account of a tumultuous period in Scottish history when the country was gripped by financial mania Looking at previously unexamined evidence this work shows that Scottish mismanagement not English interference led to Scotland's greatest financial disaster Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur, 2007

The Mineworkers Robert Duncan, 2005 This is the first substantial history of mineworkers in Scotland that covers the entire span of commercial mining from its origins in the Middle Ages to the extinction of deep coal mining in 2002 By focusing on the lives of coal miners themselves their work and working conditions Robert Duncan tells a very human story that brings into vivid relief the struggles of generations of men women and children who have laboured underground and at the pit head as well as those who spent their working lives in other significant sectors of mining lead and shale Based on a wide range of published work and primary sources including the voices of mineworkers official reports and oral and written collections *The Mineworkers* is a valuable and informative study of one of Scotland's most important industries

Neoliberal Scotland Neil Davidson, Patricia McCafferty, David Miller, 2010 Each of the book's contributors is engaged in critical academic research across a broad spectrum in Scotland. Although they are specialists in their chosen fields, they share a concern to problematise the post-devolution new Scotland by discussing it fully and effectively in the neo-liberal context of the 21st century. In addition, all of the authors are activists in the anti-capitalist, environmental, socialist and anti-war movements and are therefore engaged in the processes outlined in *These Fissured Isles* Terry Brotherstone, Anna Clark, Kevin Whelan, 2005. In the summer of 1999, a historical conference in Aberdeen under the title '98 and After' started a discussion of the period when it has been argued British identity began to be popularly assumed and to become a matter of middle class and plebeian pride as the second British empire emerged. **The British National Bibliography** Arthur James Wells, 2004. Irish Historical Studies, 2008 Vols 1 include the sections 'Writings on Irish history 1936' and 'Research on Irish history in Irish, British and American universities 1973-38'.
