 Demands for accountability in schools have led to increasingly rigorous evaluations of teachers and administrators But there
 is a gap in the literature when it comes to evaluating school support personnel such as school counsellors psychologists
 nurses social workers and librarians This book fills that gap by offering a systematic approach that enables administrators
 and evaluators to assess more effectively the performance of non teaching staff The authors present their Professional
 Support Personnel model which offers a generalized approach as well as addressing the needs of specific populations

 Nelli,Norma Nutter,1984 Prior to presenting a model for evaluating teacher education programs it is pointed out that five
 major issues must be settled before attempting an evaluation 1 the evaluation s purpose 2 clients or audience 3 specific
 questions to investigate 4 use of an internal or external evaluator or a combination and 5 dissemination of the evaluation and
 types of decisions to be made based on its results The matrix of the model includes the following elements 1 the philosophy
 and basic purposes of the program 2 objectives or intended outcomes of the evaluation 3 collection and assessment of data 4
 characteristics of students faculty college policy program budget and administration 5 interactions between mentors and
 students in the actual working curriculum 6 outcomes attributable to the program 7 external factors impinging on the
 program 8 standards against which the program s quality or value are measured and 9 judgments on the quality value or
