Coping in Politics with Indeterminate Norms Benjamin Gregg, 2003-07-17 Argues that social equity and legal justice are possible even in the absence of universal political norms **Thick Moralities, Thin Politics** Benjamin Gregg, 2003-04-18 Gregg sketches a new moral framework for political theory and public policy **The Politics of Civil-Military Cooperation** C. Ankersen, 2014-09-09 Ankersen examines Canada's civil military cooperation efforts in Kosovo Bosnia and Afghanistan through the lens of Clausewitz's Remarkable Trinity The book reveals how military action is the product of influences from the government the armed forces and the people at home **Creating Human Nature** Benjamin Gregg, 2022-10-20 Human genetic enhancement examined from the standpoint of the new field of political bioethics displaces the age old question of truth What is human nature This book displaces that question with another What kind of human nature should humans want to create for themselves To answer that question this book answers two others What constraints should limit the applications of rapidly developing biotechnologies What could possibly form the basis for corresponding public policy in a democratic society Benjamin Gregg focuses on the distinctly political dimensions of human nature where politics refers to competition among competing values on which to base public policy legislation and political culture This book offers citizens of democratic communities a broad perspective on how they together might best approach urgent questions of how to deal with the socially and morally challenging potential for human genetic engineering

German Studies in North America Keith Duane Alexander, Annemarie Sammartino, 2004 **Freedoms and Solidarities** Judith R. Blau, Alberto Moncada, 2007 Much has been written about growing global disparities in wealth and resources how global capitalism has adversely affected human populations and the environment and the dangers that a unipolar world order poses to peace and global pluralism After summarizing the evidence for these arguments the authors develop two main themes first that there is a growing transformative peoples movement that challenges global capitalism and the imperial superpower and second there is an extraordinary worldwide shift underway in human consciousness that accompanies practical global interdependencies and connectedness The authors provide evidence for an emerging foundation of what philosopher Peter Singer describes as a one world ethic and they show how this ethic is closely connected with what is called the human rights revolution They compare the western liberal conception of freedom with conceptions of freedom found in the writings of Jean Paul Sartre and Amartya Sen and draw from Hannah Arendt's The Human Condition to clarify that freedom has both collective and individual dimensions They build on these foundations to address the following topics positive human rights collective goods cosmopolitanism social and cultural pluralism and they pose alternatives to capitalism and liberal democracy The authors work in the tradition of critical social science but go beyond that to encourage readers to engage in emancipatory projects and utopian thinking The world's peoples face too many terrifying prospects not to engage such projects and thinking Proceedings and Addresses of the American Philosophical Association American

Coping With Complexity In The International System Jack Snyder, Robert Jervis, 1993-01-19 Historical chapters show how understanding the workings of complex systems allowed statesmen to devise the Concert of Europe and how the collapse of the Concert in the Crimean War was triggered by the tsar's failure to comprehend the indirect impact his strategies would have on British public opinion Another chapter highlights the feedback processes between domestic politics and the international monetary system that led to the rise and fall of the gold standard and to the creation of the European monetary system The diplomacy of the Moroccan crisis of 1905 is used to show that conventional wisdom places unwarranted weight on a state's reputation for standing firm in the interconnected international system The discussions also explore the systemic causes of World War II Contributors examine how the international financial system unwittingly helped destroy Weimar democracy and offer a challenging reinterpretation of the workings of the balance of power in the 1930s **Subject Guide to Books in Print** , 1991 **The Philosopher's Index** , 2006 Vols for 1969 include a section of abstracts *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur* , 2006 Footnotes , 2003 Il pendolo meridionale Franco Chiarello, 2006 Le iniziative locali Realt europee e insegnamenti trasversali Le politiche di sviluppo territoriale come politiche per la competitivit Valutare le politiche per lo sviluppo locale Le politiche per il Mezzogiorno e la lezione weberiana La regionalizzazione dei patto territoriali Aziende e sviluppo locale Circoli virtuosi e circoli viziosi nei comportamenti cooperativi L impatto dei sistemi di lavoro ad alta performance sulla qualit della vita di lavoro Uno studio comparato tra Italia e Gran Bretagna Il consolidamento di un mercato del lavoro parallelo Una ricerca di immigrati disoccupati in Lombardia Strategie plausibili Azione volontaria e mercato del lavoro nei sistemi locali di Welfare Coping with U.S. Export Controls , 2003
