Coping With Computers An Ethnographic Study In Primary Clabrooms:

Coping With Computers Derek Blease, Louis Cohen, 1990-01-28 This is a highly readable account of a year in the lives of teachers and pupils in two primary school classrooms It is written by two university researchers who invite the teachers to introduce computers into their curriculum planning and day to day teaching despite the fact that the teachers have neither the deep understanding of the new technology or of its capabilities It is an account of initial fear and frustration It is also a story of increasing insight awareness and confidence as the teachers struggle to cope with the computer **Journal of**
