Coping With Reality Shock:

Coping with Reality Shock Claudia Schmalenberg, Marlene Kramer, 1979 **Student teachers' and beginning teachers' coping with emotionally challenging situations** Henrik Lindqvist, 2019-04-29

Avhandlingen behandlar lärarstudenternas och nyblivna lärares erfarenheter av obehagliga situationer. Fr gestaltningar innefattar vilka situationer beskriver lärarstudenter och nyblivna lärare som emotionellt påfrestande. Hur hanterar lärarstudenter och nyblivna lärare emotionellt påfrestande situationer som beskrivs. Avhandlingen innefattar fyra artiklar som behandlar dessa frågeställningar. Resultatet visar att lärarstudenters hanterandestrategier innefattar 1) att skjuta fram i tiden att hantera känslomässigt påfrestande situationer när de börjar arbeta samt 2) att acceptera att det inte går att påverka situationer som känslomässigt påfrestande och därmed acceptera de förhållanden som skapar känslomässigt utmanade situationer. Andra strategier som studierna har visat innefattade att verka för förändring vara en del av ett kollektiv eller att förminska ansvar som sett att hantera känslomässiga utmaningar. Lärarstudenter etablerade grupper som sett att hantera påfrestande situationer i relation till känslomässigt arbetet och i förhållande till olika relationer. De nyblivna lärarna var tvungna att förhålla sig till konflikter. Detta gjorde nyblivna lärare i studien genom att verka för sin autonoma position genom att engagera sig i samarbete genom att försöka påverka eller genom att alliera sig med arbetsplatsens värdering. Dessa strategier verkar vara sammanlänkade med olika konsekvenser för autonomi och att vara en påverkanskraft i större utsträckning verkar leda till tankar om att byta skola eller att sluta som lärare.

Soft Systems Methodology in Education Jenny Gilbert, Simon Pratt-Adams, 2022-05-06

This book explores the application of Soft Systems Methodology in educational research as a qualitative research tool to generate theory and identifies the mechanisms that engender the behaviours and discourse of social groups. Grounded within the literature from philosophy and science, the approach is predicated on the ontology and epistemology of critical realism. The authors consider the tenets of systems thinking, recognizing that emergent features appear at higher levels of complexity within a hierarchy and that unintended consequences can occur when making decisions in complex situations with interacting components. The central element of the book is the formulation of a research strategy entitled Worldview Metaphor and Power of Social Objects. Womposo and its application to a research study of the practicum experience of teachers in training. Integral to the methodology is the creation of rich pictures and diagrams. Additionally, images representing different stakeholders' views of the whole system are presented in revealing illustrations, allowing the

reader to grasp each holistic metaphor It is suitable for postgraduate students and researchers in education and other social science programmes
