

Teachers coping in the classroom

When teachers face trauma, schools must do more to support their well-being and sense of safety.

By Christine E. Hood, Ilana Horn, Katherine Schneeberger McGugan, Karen Underwood, Jessica Smith, & Brette Garner

High school math teacher Veronica Kennedy was in the middle of a lesson when a student, Luca, knocked on her closed classroom door and asked to

retrieve something he had left behind earlier. (All names in this article are pseudonyms.) Veronica invited him in while she continued teaching. But instead of collecting his belongings, Luca made a

Research on Teacher Stress Christopher J. McCarthy, Richard G. Lambert, 2023-03-01 This volume informs our understanding of how educational settings can respond to the challenges of the COVID 19 pandemic and beyond Teaching has always been a challenging profession but the pandemic has added unprecedented levels of demands Much of what we know about stress and trauma in education predates the COVID 19 pandemic As the pandemic recedes it seems likely that recruiting and retaining teachers always a challenge will become even more difficult This could not be worse for students who face steep losses in their academic and socio emotional progress after more than two years of pandemic impacted schooling The silver lining is that scholars who study the occupational health have spent the past several years studying the effect of the pandemic on teachers which led us to edit this volume to collect what is known and have these experts explain how we can better support teachers in the future This book documents the many impacts of the pandemic on the teaching profession but also leverages research to chart a path forward Part I examines the contours of stress with a particular emphasis on COVID 19 impacts These contributions range from parents achievement worries to compassion fatigue and more optimistically how teachers cope Part II examines pandemic impacts on pre school teachers in both the U S and in Australia Given the social distancing in place during the pandemic pre school students and their teachers were under unique demands as there is no substitute for the personal connection critical at that age It is likely that students entering elementary school in the next few years will have work to do in their social skills Part III focuses on mentoring and stress during the pandemic Mentoring is an important part of teacher s professional development but the pandemic scrambled traditional forms of mentoring as all teachers were thrown into unfamiliar online technology The final section of this book Part IV includes links between teacher

stress and trauma during the pandemic Clearly with the ongoing nature of the pandemic it is easy to see how trauma is likely to manifest in years to come Readers of this book will better understand teacher demands as well as the resources teachers will need going forward Teachers made heroic efforts during the pandemic to help their students both academically and personally We owe to them to learn from research during the pandemic that points to the way to a healthier occupational future

Educator Stress Teresa Mendonça McIntyre, Scott E. McIntyre, David J. Francis, 2017-08-28 This book brings together the most current thinking and research on educator stress and how education systems can support quality teachers and quality education It adopts an occupational health perspective to examine the problem of educator stress and presents theory driven intervention strategies to reduce stress load and support educator resilience and healthy school organizations The book provides an international perspective on key challenges facing educators such as teacher stress teacher retention training effective teachers teacher accountability cyber bullying in schools and developing healthy school systems Divided into four parts the book starts out by introducing and defining the problem of educator stress internationally and examining educator stress in the context of school education system and education policy factors Part I includes chapters on educator mental health and well being stress related biological vulnerabilities the relation of stress to teaching self efficacy turnover in charter schools and the role of culture in educator stress Part II reviews the main conceptual models that explain educator stress while applying an occupational health framework to education contexts which stresses the role of organizational factors including work organization and work practices It ends with a proposal of a dynamic integrative theory of educator stress which highlights the changing nature of educator stress with time and context Part III starts with the definition of what constitute healthy school organizations as a backdrop to the following chapters which review the application of occupational health psychology theories and intervention approaches to reducing educator stress promoting teacher resources and developing healthy school systems Chapters include interventions at the individual individual organizational interface and organizational levels Part III ends with a chapter addressing cyber bullying a new challenge affecting schools and teachers Part IV discusses the implications for research practice and policy in education including teacher training and development In addition it presents a review of methodological issues facing researchers on educator stress and identifies future trends for research on this topic including the use of ecological momentary assessment in educator stress research The editors concluding comments reflect upon the application of an occupational health perspective to advance research practice and policy directed at reducing stress in educators and promoting teacher and school well being
