Coronation Street:

The Playground Model of Disability David Bolt, 2025-10-14 More than being counter to what we must surely endeavour to consider the status quo of honesty not to mention the pursuit of truth that should still be fundamental in academia and education more broadly dishonesty involves deceit and thus victimisation which is to say it tends to be used either against someone or to give someone an unfair advantage Such personal interactions are sometimes and in the context of this book revealingly referred to as the games people play When an unfair advantage is so given someone else tends to be disadvantaged an aspect of dishonesty that resonates with disablement This book coins the term dishonesty to define the many moments in which dishonesty is invoked by disability and vice versa The concept is explored via a selection of contemporary British sociocultural representations namely short jokes disability sitcom soap opera activist radio interviews fictionalised observations and the robotic positionality of Artificial Intelligence In investigating these representations of dishonesty on the basis that the blueprint of adult behaviour is found in the schoolyard playground figurations are posited as part of the autocritical framework Remarkably there are many such relationships with disablement for intrinsic to Piggy in the Middle Leapfrog Pile On Hide and Seek Blind Man's Bluff and Robot Tick among other playground games is interpersonal inequity whereby a normative position is juxtaposed with one defined by being outnumbered inhibited and or singled out The playground model of disability reveals normative traditions that according to a range of recent representations people are often more than tempted to follow Like a hegemonic game of Hopscotch the way of the normative social order is sketched before us complete with behavioural guidelines legitimised by repetition and

competition This book shows how dishonesty tropes serve the normative social order and how the playground model can be used to critique instances in which disablement emanates from interactions more than institutions people more than places The Playground Model of Disability Dis honesty Tropes in Contemporary British Sociocultural Representation will be of particular interest to readers in disability studies as well as those in humour studies radio studies media studies television studies literary studies cultural studies inclusion studies drama sociology and critical theory **Coronation Street**

Katherine Hardy, 2008 From the time when Rovers Return landlady Annie Walker first cast a disapproving glance at Ena Sharples gossiping with Minnie Caldwell to the traumas caused by the tangled love lives of the Websters or the McDonalds viewers have been gripped by the lives of those who live in one street in the northern town of Weatherfield Just like any other street in the country the locals living there have changed dramatically over the years since the rest of Britain first paid the area a visit in 1960 There have been many marriages births and deaths with characters such as Elsie Tanner Hilda Ogden Alf Roberts or Mike Baldwin fading into the past as new faces move into the street The one man who has remained ever since we first saw him there all those years ago is of course Ken Barlow Despite the changing nature of its residents and the many disasters and tragedies that have befallen them one thing in the street always remains the same Defying all the dark intrigue and neighborhood squabbles the people who live there maintain a close knit community supporting each other through the tough times and celebrating the good times This is the complete story of Coronation Street The Richard Dyer Reader
