Corporate Imaginations Mari Dumett, 2017-08-22 The first extended study of the renowned artists collective Fluxus Corporate Imaginations examines the group as it emerged on three continents from 1962 to 1978 in its complexities contradictions and historical specificity The collective's founder George Maciunas organized Fluxus like a multinational corporation simulating corporate organization and commodity flows yet it is equally significant that he imagined critical art practice in this way at that time For all its avant garde criticality Fluxus also ambivalently shared aspects of the rising corporate culture of the day In this book Mari Dumett addresses the business of Fluxus and explores the larger discursive issues of organization mediatization routinization automation commoditization and systematization that Fluxus artists both manipulated and exposed A study of six central figures in the group George Brecht Alison Knowles George Maciunas Nam June Paik Mieko Shiomi and Robert Watts reveals how they developed historically specific strategies of mimicking the capitalist system These artists appropriated tools occupied spaces revealed operations and ultimately performed the system itself via aesthetics of organization communication events branding routine and global mapping Through corporate imaginations Fluxus artists proposed strategies for living as conscious creative subjects within a totalizing and increasingly global system demonstrating how these strategies must be repeated in an ongoing negotiation of new relations of power and control between subject and system

Renewing Theology J. Matthew Ashley, 2022-07-15 This comprehensive study investigates the role that Ignatian spirituality has played in the renewal of academic theology using three prominent Jesuits as case studies Over several centuries spirituality has come to define a field of concerns and themes increasingly treated separately from those of academic theology as if the latter had little relation to the former This raises the question for us today How is spirituality related to the practice of theology In *Renewing Theology* J. Matthew Ashley provides an answer by turning to Ignatian spirituality and three prominent twentieth century theologians who embraced its spiritual resources Karl Rahner Ignacio Ellacur a and Jorge Mario Bergoglio that is Pope Francis Ashley begins his investigation by considering the historical origins of the widening separation between spirituality and academic theology in the Christian West He provides an initial overview of Ignatian spirituality focusing on the openness and multidimensionality of Ignatius of Loyola's Spiritual Exercises presented here as a text in which the conditions of modernity that defined its author's world are present at least incipiently Ashley then offers three case studies in order to show how each Jesuit Rahner Ellacur a and Pope Francis responded to the challenges of modernity in a way that is uniquely nourished and illuminated by themes constitutive of Ignatian spirituality Their theologies Ashley suggests evince a particular clarity and force when the Ignatian spirituality that animates them is foregrounded Providing new and productive avenues into understanding the theologies of these three individuals this sophisticated and enlightening book will interest scholars and students of systematic theology as well as readers who are interested in the future of theology and spirituality in a fragmented age
