Corporate Tribe:

The Corporate Tribe Danielle Braun, Jitske Kramer, 2018-11-09 No challenge is entirely new In 60 000 years of human existence nearly every problem we face in modern business has already been seen and solved We just have to figure out how to apply that age old tribal wisdom to our current circumstances The Corporate Tribe will take you on a journey to discover the essence of culture and the secret to successful change programs Along the way it will introduce you to the cultural traditions of different people across the globe and provide you with the practical tools you need to apply what you find to today s organizations Through thirty compelling stories The Corporate Tribe will reveal what deep down you already know At turns unfamiliar and disruptive illuminating and inspirational The Corporate Tribe offers a powerful paradigm and skillset for tackling organizational and leadership challenges in the twenty first century and beyond It is a book for leaders consultants and advisors who are looking for a fresh perspective and proven solutions for those who want to build strong communities that are safe for diversity and ready for change Danielle Braun and Jitske Kramer are corporate anthropologists They look at organizations as tribes organizational charts as kinship systems leaders as chiefs and mission documents as totem poles Travel with them to places where spirits linger after death magic is real and rituals are the key to maintaining order and facilitating transition You will never look at your organization or approach its problems the same way again Hunting and Gathering in the Corporate Tribe Keith D. Wilcock, 2004 Behind the oak paneled boardrooms and underneath the pin striped suits lurk the same organizational principles that ruled the very first social group the tribe This book is an evolutionary look at the modern corporation and how its structure roles pecking orders and practices correspond to those of ancient tribal societies You can forget about the academics of management the ivory tower of wisdom of conventional M B A s Hunting and Gathering shows what it s really like who are the chieftains the hunters the gatherers Power symbols rituals and initiation rites are used every bit as much as they were in the past This book helps us understand which buttons are being pushed and why It s a whole new way to look at big business *Hunting and Gathering in the Corporate Tribe* Keith D. Wilcock, 2004 A consulting psychologist since 1975 Wilcock has been researching the parallels between corporations and tribes for 30 some years and argues that modern corporations are simply evolved tribes He traces changes in the basic tribal structures roles pecking orders rituals and practices as human civilization progressed from hunting and gathering *The Corporate Tribe* Keith D.
