**Leopold's Odyssey, Tenth Anniversary Edition** Julianne Lutz Warren, 2016-05-24 In 2006 Julianne Lutz Warren n e Newton asked readers to rediscover one of history s most renowned conservationists Aldo Leopold s Odyssey was hailed by The New York Times as a biography of ideas making us feel the loss of what might have followed A Sand County Almanac by showing us in authoritative detail what led up to it Warren s astute narrative quickly became an essential part of the Leopold canon introducing new readers to the father of wildlife ecology and offering a fresh perspective to even the most seasoned scholars A decade later as our very concept of wilderness is changing Warren frames Leopold s work in the context of the Anthropocene With a new preface and foreword by Bill McKibben the book underscores the ever growing importance of Leopold s ideas in an increasingly human dominated landscape Drawing on unpublished archives Warren traces Leopold s quest to define and preserve land health Leopold s journey took him from Iowa to Yale to the Southwest to Wisconsin with fascinating stops along the way to probe the causes of early land settlement failures contribute to the emerging science of ecology and craft a new vision for land use Leopold s life was dedicated to one fundamental dilemma how can people live prosperously on the land and keep it healthy too For anyone compelled by this question the Tenth Anniversary Edition of Aldo Leopold s Odyssey offers insight and inspiration **Correction Lines** Curt Meine, 2004-10-06 The last fifteen years have

been a period of dramatic change both in the world at large and within the fields of ecology and conservation. The end of the Cold War, the dot com boom and bust, the globalizing economy, and the attacks of September 11 among other events and trends have reshaped our worldview and the political environment in which we find ourselves. At the same time, emerging knowledge, needs, and opportunities have led to a rapid evolution in our understanding of the scientific foundations and social context of conservation. *Correction Lines* is a new collection of essays from one of our most thoughtful and eloquent writers on conservation, putting these recent changes into perspective and exploring the questions they raise about the past, present, and future of the conservation movement. The essays explore interrelated themes: the relationship between biological and social dimensions; the historic tension between utilitarian and preservationist approaches; the integration of varied cultural perspectives; the enduring legacy of Aldo Leopold; the contrasts and continuities between conservation and environmentalism; the importance of political reform and the need to retool conservation to address twenty-first century realities. Collectively, the essays assert that we have reached a critical juncture in conservation, a correction line of sorts. *Correction Lines* argues that we need a more coherent and comprehensive account of the past if we are to understand our present circumstances and move forward under unprecedented conditions. *Meine* brings together a deep sense of history with powerful language and compelling imagery, yielding new insights into the origins and development of contemporary conservation. *Correction Lines* will help us think more clearly about the forces that have changed and are changing conservation and inspire us to address current realities and future needs.

***Making Nature Whole*** William R. Jordan, George M. Lubick, 2011-07-26 *Making Nature Whole* is a seminal volume that presents an in-depth history of the field of ecological restoration as it has developed in the United States over the last three decades. The authors draw from both published and unpublished sources, including archival materials and oral histories from early practitioners, to explore the development of the field and its importance to environmental management as well as to the larger environmental movement and our understanding of the world. Considering antecedents as varied as monastic gardens, the Scientific Revolution, and the emerging nature awareness of nineteenth-century Romantics and Transcendentalists, Jordan and Lubick offer unique insight into the field's philosophical and theoretical underpinnings. They examine specifically the more recent history, including the story of those who first attempted to recreate natural ecosystems early in the 20th century as well as those who over the past few decades have realized the value of this approach not only as a critical element in conservation but also as a context for negotiating the ever-changing relationship between humans and the natural environment. *Making Nature Whole* is a landmark contribution, providing context and history regarding a distinctive form of land management and giving readers a fascinating overview of the development of the field. It is essential reading for anyone interested in understanding where ecological restoration came from or where it might be going.

***A Fierce Green Fire*** Marybeth Lorbiecki, 2016-03-11 For anyone interested in wildlife, birds, wilderness areas, parks, ecology, conservation, environmental literature, and ethics, the name Aldo Leopold is sure to pop

up Since first publication Aldo Leopold's *A Fierce Green Fire* has remained the classic short inspiring biography of Leopold the perfect companion to reading his ever popular *A Sand County Almanac*. Winning numerous awards, this comprehensive account of his life story is dynamic and readable, written in the context of the history of American conservation and illustrated with historic photographs. Marybeth Lorbiecki has now enriched *A Fierce Green Fire* in a way no other biography on Leopold has, adding numerous chapters on the ripple effects of his ideas, books, ecological vision, land ethic, and Shack, as well as of the ecological contributions of his children, graduate students, contemporary scholars, and organizations and the wilderness lands he helped preserve. Lorbiecki weaves these stories and factual information into the biography in a compelling way that keeps both lay and academic readers engaged. In the introduction to this edition, Lorbiecki makes it clear how much better our lives are because Leopold lived and why today we so radically need what he left us to bring about paradigm shifts in our ethical, economic, and cultural thinking. Instead of losing relevance, Leopold's legacy has gained ever more necessity and traction in the face of contemporary national and world challenges such as species loss and climate change. Even the phenological studies he started at as a hobby are proving valuable, showing the climatic shifts that have occurred at the Shack lands since the 1930s, recognized by the plants and animals.

*Conservation for a New Generation* Richard L. Knight, Courtney White, 2009. *Conservation for a New Generation* highlights the dynamic state of how natural resources management is being practiced in the United States today as it transitions from top-down programs and federal mandates to a largely bottom-up approach that involves a broad range of stakeholders working together to achieve common goals. The book considers the implications of those changes for future conservation efforts and offers a conceptual blueprint for effective conservation that can guide students and practitioners both now and into the future.

*The North Dakota Quarterly*, 2007 **Agrarianism and the Good Society** Eric T. Freyfogle, 2007-03-02. Every society expresses its fundamental values and hopes in the ways it inhabits its landscapes. In this literate and wide-ranging exploration, Eric T. Freyfogle raises difficult questions about America's core values while illuminating the social origins of urban sprawl, dwindling wildlife habitats, and over-engineered rivers. These and other land use crises he contends arise mostly because of cultural attitudes that made sense on the American frontier but now threaten the land's ecological fabric. To support and sustain healthy communities, profound adjustments will be required. Freyfogle's search leads him down unusual paths. He probes Charles Frazier's novel *Cold Mountain* for insights on the healing power of nature and tests the wisdom in Wendell Berry's fiction. He challenges journalists writing about environmental issues to get beyond well-worn rhetoric and explain the true choices that Americans face. In an imaginary job advertisement, he issues a call for a national environmental leader, identifying the skills and knowledge required, taking note of cultural obstacles, and looking critically at supposed allies. Examining recent federal elections, he largely blames the conservation cause and its inattention to cultural issues for the diminished status of the environment as a decisive issue. *Agrarianism and the Good Society* identifies the social, historical, political, and cultural obstacles to humans' harmony with

nature and advocates a new orientation one that begins with healthy land and that better reflects our utter dependence on it In all Agrarianism and the Good Society offers a critical yet hopeful guide for cultural change essential for anyone interested in the benefits and creative possibilities of responsible land use *Natural Resources Journal* ,2007 *The Painted Forest* Krista Eastman,2019 Collection of creative essays about identity and place set in various locations in Wisconsin including Sauk County the Dells the Driftless Ernest Hupeden s The Painted Forest in Valton and McMurdo Station in Antarctica

*The Western Historical Quarterly* ,2005 **Act III in Patagonia** William Conway,2005-07-11 From tracking elephant seals in the Atlantic to following flamingos in the Andes Act III in Patagonia takes readers to the sites where real life field science is taking place It further illuminates the ecology of the region through a history that reaches from the time of the Tehuelche Indians known by Magellan Drake and Darwin to the present **News Leaf** ,2005 **Nature's End** Sverker Sörlin,Paul Warde,2009-07-23 Environmental History as a distinct discipline is now over a generation old with a large and diverse group of practitioners around the globe This book provides a reflection on the achievements diversity and direction of environmental history in its varied national international and continental contexts *American Environmental History* Carolyn Merchant,2007 By studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity s unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis Beginning with the precolonial land use practice of Native Americans and concluding with our twenty first century concerns over our global ecological crisis American Environmental History addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class Entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the Russian sea otter trade Columbia River salmon fisheries the environmental justice movement and globalization This illustrated reference is an essential companion for students interested in the ongoing transformation of the American landscape and the conflicts over its resources and conservation It makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to conduct their research The volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and Web sites **Midamerica** ,2006 **The Publishers Weekly** ,2004 *Arthur Carhart* Tom Wolf,2008-06-30 Wolf traces Carhart s twists and turns to show a man whose voice was distinctive and contrary who spoke from a passionate concern for the land and could not be counted on for anything else BOOK JACKET **Wisconsin Magazine of History** Milo Milton Quaife,Joseph Schafer,Edward Porter Alexander,2020 **American Book Publishing Record** ,2003
