Barnard, William Joseph Burns, Duane Ryan, US Army Military History Institute, 1977 **Iron Curtain Twitchers** Jennifer M.

Hudson, 2018-11-23 The Cold War is often viewed in absolutist terminology the United States and the Soviet Union characterized one another in oppositional rhetoric and pejorative propaganda State sanctioned communications stressed the inherent dissimilarity between their own citizens and those of their Cold War foe Such rhetoric exacerbated geopolitical tensions and heightened Cold War paranoia most notably during the Red Scare and brinkmanship incidents Government leaders stressed the reactive defensive foreign policies they implemented to retaliate against their counterparts offensive maneuvers Only brief periods of détente gave glimpses into the possibility of concerted peaceful coexistence Yet such characterizations neglect the complexities and rhetorical nuances that created fissures throughout the long standing ideological conflict Grassroots diplomacy rarely coalesced with official governmental rhetoric and often contradicted the discourse emanating from the White House and the Kremlin Organizations such as Women Strike for Peace WSP the Committee for Nonviolent Action CNVA and the Moscow Trust Group MTG defied policy directives and sought to establish genuine peaceful coexistence Traveling citizens posited that U S and Soviet citizens possessed more underlying commonalities than their governmental leaders cared to admit phenomena underscored in events such as the San Francisco to Moscow Walk for Peace Spacebridge programs railed against the Strategic Defense Initiative SDI and proclaimed that figurative and literal links between their country and the Other proved more conducive to public opinion than Star Wars Iron Curtain Twitchers examines such juxtaposing rhetorics through three lexical themes contamination containment and coexistence It analyzes the disparate perspectives of public politicians and private citizens throughout the Cold War's

duration and its aftermath to better understand the political cultural and geopolitical nuances of U S Russia relations Vacillating rhetoric among politicians journalists and traveling citizens complicated geopolitical relationships sociopolitical disagreements and cultural characterizations These dialogues are contrasted with the cultural mediums of film and political cartoons to underscore fluctuating Cold War identity dynamics Manifestations of one s own country contrasted with propagations of the Other and indicate that the Cold War lasted much longer and remains more virulent than previously conceived

Advocating Overlord Philip Padgett,2018-05-01 Well there it is It won t work but you must bloody well make it said the chief of Britain s military leaders when he gave orders to begin planning for what became known as Operation Overlord While many view D Day as one of the most successful operations of World War II most aren t aware of the intensive year of planning and political tension between the Allies that preceded the amphibious military landing on June 6 1944 This intriguing history reveals how President Franklin D Roosevelt while on a fishing trip in the middle of World War II altered his attitude toward Winston Churchill and became an advocate for Operation Overlord Philip Padgett challenges the known narrative of this watershed moment in history and illuminates the diplomatic link between Normandy and the atomic bomb He shows how the Allies came to agree on a liberation strategy that began with D Day and the difficult forging of British and American scientific cooperation that produced the atomic bomb At its core this story is about how a new generation of leaders found the courage to step beyond national biases in a truly allied endeavor to carry out one of history s most successful military operations
