Review ,1998 Widow City Anna Wainwright,2025-05-13 Widow City Gender Emotion and Community in Renaissance Italy investigates the ever evolving role of the widow in medieval and early modern Italian literature from canonical authors such as Dante Petrarch and Boccaccio to the numerous widowed writers who rose to prominence in the sixteenth century including Vittoria Colonna Veronica Gambara and Francesca Turina and radically changed the conversation on public mourning Engaging with broader intellectual discussions around gender the history of emotions the politics of mourning and the construction of community Widow City argues that widows served as key models demonstrating to readers not just how to mourn but how to live well after devastating loss At the same time widows were figures of great anxiety their status as

unattached women and the public performance of their grief were viewed as very real threats to the stability of the social order They are thus key to broader intellectual understandings of community and civic life in the Italian Middle Ages and Renaissance
