## **Dark Hours:**

**Bright Triumphs From Dark Hours** David Heenan, 2009-10-15 The dark hours They occur when we find things spiraling out of control when we feel most vulnerable and incapable of finding a solution In a world often turned dark and cold more and more people seem to be trapped in nightmarish circumstances Americans the world's optimists when faced with an intractable situation are taught to believe that through hardwork and will power they can beat the odds Yet according to David Heenan keeping one's nose to the grindstone may actually make things worse **Bright Triumphs From Dark Hours** examines the lives of ten extraordinary people who overcame great adversity in their personal or professional lives by applying winning strategies that guided them out of the darkness of near defeat and into the light of success From New York City school chancellor Joel Klein taking on the monumental task of overhauling the city's embattled public school system to renowned scientist Shirley Ann Jackson breaking down barriers to become the first African American woman to receive a doctorate from MIT and head a major research university to retired U S Navy Commander Scott Waddle reshaping his life after the Ehime Maru disaster in these inspiring stories Heenan identifies key strategies that helped each person stay upbeat in the swirling vortex of tough times The final chapter outlines these practices in greater detail and explains how they can be used to create personal roadmaps to negotiate life's darkest hours from which come its greatest successes its brightest triumphs

**The Link Persona** J. M. Richard, 2010-04 The Link Persona is a provocative chilling and timely book about the world's rapid spiral into a nation controlled by inhabitants from another world Alfajet is an astute man grasping concepts and theories quickly Friends with everyone of different races cultures and creeds his life reflects his beliefs That is until the others came to Earth and Alfajet shifts his persona in order to adapt Mysterious toxins are poisoning human plant and animal life Humans are being abducted by aliens from a different world People not prepared for the Armageddon are caught off guard and suffer from manic behavior The wealthy go mad and the vulnerable and meek become strong Darkness rain and enormous storms rain down everywhere and humans will have to learn to be content and share their planet Will they learn that nature has control Will they lessen their own control and greed before it's too late for mankind and for all life on Earth before it's too late J M Richard has written a riveting thriller that not only delivers top notch action from the first page but reflects a canny and unsettling foreshadowing of what our world could become J M Richard is an American citizen born in Kenya East Africa Mr Richard graduated from the East Africa School of Theology and then attended Cal State for his post graduate work He has spent two decades in the fields of religious ministry and motivational speaking to teens and young adults all over the world He lives in Los Angeles California

Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These

libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
