## Dark Interval:

*The Dark Interval* Padraic Killeen, 2022-05-05 Invoking key concepts from the philosophical writings of Gilles Deleuze and Giorgio Agamben *The Dark Interval* examines a subtle but distinct iconography of passivity stillness and profound self affection that recurs across noir films of every era In doing so it identifies the emergence of a specific cinematic figure the intervallic noir protagonist exposed to the redemptive force of his or her own passion Significantly the book contextualises the iconography of film noir in relation to prior art historical visual traditions in particular earlier representations of melancholia and the saturnine locating noir against a much broader canvas than has been the norm Examining central noir films of the classic and modern era *The Killers* *The Man Who Wasn't There* as well as films at the peripheries of noir from Jacques Tourneur's *Cat People* to Wong Kar Wai's *2046* the book locates a series of iconographic gestures performance traditions and affective tonalities at once specific to noir and yet resonant with a deeper cultural and philosophical heritage It is a meditation that uniquely grapples with the look and the feel of noir and which dares to detect a unique quality of beatitude that runs through a certain strain of noir films In doing so it illuminates why film noir remains one of the most provocative and affecting visual milieus of our time
