

# Plotting Negative Integers on a Number Line

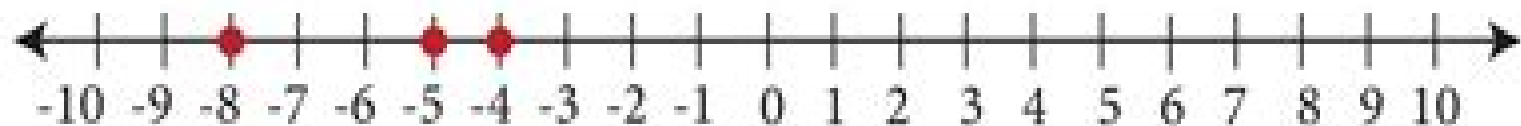

Plot  $-4$ ,  $-5$ ,  $-8$  on the given number line

Solution:

First take a look at the number line provided. You'll see that it starts at  $-10$  on the left, goes through zero in the middle, and ends at  $+10$  on the right.

Now, plot the given negative integers on the number line. Each number will have its own point on the line. Remember that as you move to the left, the numbers get smaller.
