Performance Alison Liebling, Helen Arnold, 2004 Penal practices have undergone important transformations over the period from 1990 to 2003 Part of this transformation included a serious flirtation with a liberal penal project that went wrong A significant contributory factor in this unfortunate turn of events was a lack of clarity by those working in and managing prisons about important terms such as justice liberal and care and how they might apply to daily penal life Official measures of the prison service seem to lack relevance to many who live and work in prison and to their critics The author proposes that a truer test of the quality of prison life is what staff and prisoners have to say about those aspects of prison life that matter most relationships fairness order and the quality of their treatment by those above them The book attempts a detailed analysis and measurement of these dimensions in five prisons It finds significant differences between establishments in these areas of prison life and some departures from the official vision of the prison supported by the performance framework

The Warehouse Prison John Irwin, 2005 This book examines the nature of imprisonment in the U S warehouse prisons through a study of Solano State Prison a new California middle range institution where new technologies and prison regimes are being used to control up to 6 000 inmates These inmates are crowded in a small space with little access to rehabilitative and recreational programs Control is accomplished through the physical design of the prison the use of surveillance technology the rigid enforcement of extensive rules and the possibility of transferring troublesome prisoners to supermax prisons The book identifies harm that this kind of prison experience imposes on individuals and looks at the difficulties ex inmates have in adjusting after release **Criminal Justice** Reid, Sue Titus Reid, 1998-10 Brief Contains 12 chapters
