Reeves,2019-01-08 The history of recruiting citizens to spy on each other in the United States Ever since the revelations of whistleblower Edward Snowden we think about surveillance as the data tracking digital technologies used by the likes of Google the National Security Administration and the military But in reality the state and allied institutions have a much longer history of using everyday citizens to spy and inform on their peers Citizen Spies shows how If You See Something Say Something is more than just a new homeland security program it has been an essential civic responsibility throughout the history of the United States From the town crier of Colonial America to the recruitment of youth through junior police to the rise of Neighborhood Watch AMBER Alerts and Emergency 9 1 1 Joshua Reeves explores how ordinary citizens have been taught to carry out surveillance on their peers Emphasizing the role humans play as seeing and saying subjects he demonstrates how American society has continuously fostered cultures of vigilance suspicion meddling snooping and

snitching Tracing the evolution of police crowd sourcing from Hue and Cry posters and America's Most Wanted to police affiliated social media as well as the U S's recurrent anxieties about political dissidents and ethnic minorities from the Red Scare to the War on Terror Reeves teases out how vigilance toward neighbors has long been aligned with American ideals of patriotic and moral duty Taking the long view of the history of the citizen spy this book offers a much needed perspective for those interested in how we arrived at our current moment in surveillance culture and contextualizes contemporary trends in policing
