Jensen,2013-02-11 This book introduces theological hermeneutics by giving a historical account of the development of hermeneutical thinking It defines hermeneutics as the analysis of the obstacles to understanding The history of hermeneutical thinking and responses to obstacles is told here beginning with the allegorical interpretation of myths in Hellenism through to the contemporary view of the hermeneutical problem as universal Following the opening chapters on the history of hermeneutical thought the book presents an overview of the various contemporary hermeneutical schools of thought and shows their rooted ness in different parts of the hermeneutical tradition The focus is clearly on biblical interpretation however it does also take account of developments outside the field of theology as they influence the theological reflection on the hermeneutical problem The questions raised and the possible answers suggested

in this volume will be of interest to students of other disciplines such as philosophy and literature      SCM Core Text: New Testament Richard Cooke, 2013-01-03 An undergraduate textbook for use on modules introducing the New Testament It argues that the New Testament reflects four streams of apostolic tradition reflected in the 4 gospels It includes bibliographies at the end of each section to guide the reader to the most relevant areas for further research in any given subject area      **SCM Core Text: Theological Hermeneutics** Alexander Jensen, 2007-06-28 This book introduces theological hermeneutics by giving a historical account of the development of hermeneutical thinking It defines hermeneutics as the analysis of the obstacles to understanding The history of hermeneutical thinking and responses to obstacles is told here beginning with the allegorical interpretation of myths in Hellenism through to the contemporary view of the hermeneutical problem as universal Following the opening chapters on the history of hermeneutical thought the book presents an overview of the various contemporary hermeneutical schools of thought and shows their rootedness in different parts of the hermeneutical tradition The focus is clearly on biblical interpretation however it does also take account of developments outside the field of theology as they influence the theological reflection on the hermeneutical problem The questions raised and the possible answers suggested in this volume will be of interest to students of other disciplines such as philosophy and literature      **SCM Core Text: The Book of Revelation** Simon Woodman, 2013-01-25 For most people Revelation is a book that is either largely ignored or it is the object of such fanatical study and fanciful interpretation that it passes from the realm of the interesting and helpful into the realm of fantasy and speculation Much literature has been published in recent years on its interpretation some of which is scholarly and technical and some of which is populist and accessible The problem is that the technical and scholarly material frequently requires careful and detailed study combined with an advanced level of knowledge whereas much of the populist material tends toward the fanatical and fanciful The aim of this book is to bridge this gap It is written with second and third year university students in mind and would also be helpful for pastors and those in local churches who want to take seriously their study of this often needlessly confusing biblical book      *SCM Core Text: Christian Approaches to Other Faiths* Paul Hedges, 2013-02-11 The textbook begins with a chapter on exclusivism inclusivism particularity and pluralism and one on interfaith Each chapter explains the history rationale and workings of the various approaches Moreover each is divided into sub sections dealing with various forms of each approach so that each may be appreciated in its individuality i e the chapter on Inclusivism will include sections on fulfilment theology anonymous Christians etc The second part of this textbook deals with attitudes towards different faiths considering the problems and relations that exist with Christian approaches to each It will deal with the world's major faiths as well as primal religions and new religious movements The introduction and conclusion will deal with some central themes that run throughout in particular the questions of the Trinity and concepts of salvation In each section reference will be made to the key texts discussed in the Reader which accompanies this 9780334041155 however the work may be read as a stand
