Cornea and Refractive Surgery New Orleans Academy of Ophthalmology. Session,1998 Preface From Friday morning February 21 1997 through Sunday February 23 at noon members and guests of the New Orleans Academy of Ophthalmology heard presentations and discussions of the latest techniques and trends in the study of corneal diseases and surgery including refractive surgery This was the subject of the Forty Sixth Annual Symposium of the Academy The speakers comprised a group of eight clinician surgeons with a wealth of experience and a well respected talent for innovation in their areas of expertise From trends in bacterial keratitis to ocular surface disease and healing to the latest opinions on anterior segment reconstruction and refractive surgery the topics covered were diverse and timely Especially interesting were the discussions generated by the panelists presentations and by the question and answer sessions The demands placed on the speakers at the Annual Meeting of the New Orleans Academy of Ophthalmology are large and multiple and probably greater than for most other educational conferences Each speaker commits to preparing several lectures and usually a panel discussion for presentation and all speakers are asked to participate in the panel discussions and question and answer periods The topics are chosen by the program committee and we sometimes ask speakers to present a subject that is not in their area of research or primary interest This usually means researching and preparing a completely new lecture And last but not least all speakers commit to preparing chapters and completing panel discussions for this book And these duties are added to already busy practice and speaking schedules in fact the speakers are selected because they have new ideas and useful things to say that everyone wishes to hear Not all invited speakers are up to the task but this year we were fortunate that all of our first choices accepted the challenge Because of the rapidity of change in both refractive surgery and anterior segment treatment we have attempted to provide the transactions as rapidly as possible This urgency has again added more demands on the time and energy of the speakers And this group of authors has responded admirably to our requests Because of their efforts the reader can use this publication as an update and as a gauge to his her present practice guidelines I wish

to thank all eight speaker authors for their efforts on behalf of the New Orleans Academy of Ophthalmology and the readers of this publication. The information presented here was put on paper by the authors but we readers are the ones who benefit. In addition, they have added to a forty year tradition of publications by the New Orleans Academy of Ophthalmology. I hope that readers consider this book as timely and as useful as previous issues of the Transactions. I also wish to thank Monica L. Monica MD, President of the NOAO and the Executive Committee for supporting the program and this publication. As always, a considerable amount of time and effort came from Emily Busby, executive secretary of the NOAO, and my thanks go to her as well. Lastly, Marguerite McDonald MD deserves much credit in the organization of the meeting and the program. Her knowledge and experience were truly indispensable.

Daniel A. Long MD Current Catalog, 1988. First multi-year cumulation covers six years 1965-70. Ophthalmic Desk Reference James F. Collins, 1991. This desk reference is designed to be a single rapid reference source to answer any clinical question arising in an ophthalmic specialist's practice.
