Corpus Maya Hieroglyphic Inscr Volume 5 Pt 1:

Corpus of Maya Hieroglyphic Inscriptions: pt. 1. Von Euw, E. Xultun. pt. 2. Von Euw, E and Graham, I. Xyltun. La Honradez. Uaxactun. pt. 3. Graham, I Ian Graham,1978 **The Adorned Body** Nicholas Carter,Stephen D. Houston,Franco D. Rossi,2020-09-01 How we dress our bodies through clothing footwear headgear jewelry haircuts and more is key to the expression of status and identity This idea was as true for ancient Maya civilization as it is today yet few studies have centered on what ancient Maya peoples wore and why In *The Adorned Body* Nicholas Carter Stephen Houston and Franco Rossi bring together contributions from a wide range of scholars leading to the first in depth study of Maya dress in pre Columbian times Incorporating artistic hieroglyphic and archaeological sources this book explores the clothing and ornaments of ancient Maya peoples systematically examining who wore what deducing the varied purposes and meanings of dress items and larger ensembles and determining the methods and materials with which such items were created Each essay investigates a category of dress including headgear pendants and necklaces body painting footwear and facial ornaments and considers the variations within each of these categories as well as popular styles and trends through time The final chapters reveal broader views and comparisons about costume ensembles and their social roles Shedding new light on the art and archaeology of the ancient Americas *The Adorned Body* offers a thorough map of Maya dress that will be of interest to scholars and fashion enthusiasts alike *The Proceedings of the Maya Hieroglyphic Workshop* ,1994 **The Memory of Bones** Stephen Houston,David Stuart,Karl Taube,2006-06-01 All of human experience flows from bodies that feel express emotion and think about what such experiences mean But is it possible for us embodied as we are in a particular time and place to know how people of long ago thought about the body and its experiences In this groundbreaking book three leading experts on the Classic Maya ca AD 250 to 850 marshal a vast array of evidence from Maya iconography and hieroglyphic writing as well as archaeological findings to argue that the Classic Maya developed a coherent approach to the human body that we can recover and understand today The authors open with a cartography of the Maya body its parts and their meanings as depicted in imagery and texts They go on to explore such issues as how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality that were intimately bound up in these domains how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body **The Ancient Maya, 6th Edition** Robert J. Sharer,Loa P. Traxler,2006 The rich findings of recent exploration and research are

incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people New field discoveries new technical advances new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary

White Roads of the Yucatán Justine M. Shaw, 2008 Maya sacbeob or raised white roads are often considered a single class of features with a sole purpose In this first systematic examination of their functions meanings arrangements and construction styles Justine Shaw reveals that these causeways served a variety of cultural and natural functions In *White Roads of the Yucatán* author Justine Shaw presents original field data collected with the Coahuah Regional Archaeological Survey at two ancient Maya sites Ichmul and Yo'okop Both centers chose to invest enormous resources in the construction of monumental roadways during a time of social and political turmoil in the Terminal Classic period Shaw carefully examines why it was at this point and no other that the settlements made such a decision She argues that both settlements used the sacbeob as a method of socially integrating the largest most diverse and dispersed population in the Coahuah region She further demonstrates that their use of the sacbeob in concert with other innovative strategies allowed Ichmul and Yo'okop to outlast many of the sites that they may have sought to emulate and to flourish during a time of tremendous sociopolitical and economic change In addition to her detailed discussion of these two sites Shaw provides an exhaustive review of the literature of Maya sacbeob archaeology describing various interpretations of construction features and variability This synthetic and interpretive treatment will aid researchers working on a variety of complex civilizations with road systems as well as those interested in core periphery relationships cultural collapse and social integration

Ancient Maya Politics Simon Martin, 2020-06-18 The Classic Maya have long presented scholars with vexing problems One of the longest running and most contested of these and the source of deeply polarized interpretations has been their political organization Using recently deciphered inscriptions and fresh archaeological finds Simon Martin argues that this particular debate can be laid to rest He offers a comprehensive reanalysis of the issue in an effort to answer a simple question how did a multitude of small kingdoms survive for some six hundred years without being subsumed within larger states or empires Using previously unexploited comparative and theoretical approaches Martin suggests mechanisms that maintained a dynamic equilibrium within a system best understood not as an array of individual polities but an interactive whole With its rebirth as text backed historical archaeology Maya studies has entered a new phase one capable of building a political anthropology as robust as any other we have for the ancient world

Notebook for the ... Maya Hieroglyphic Workshop at Texas, 1993 [War and Society in Ancient Mesoamerica](#) Ross Hassig, 1992-08-19 In this study of warfare in ancient Mesoamerica Ross Hassig offers new insight into three thousand years of Mesoamerican history from roughly 1500 B C to the Spanish conquest He examines the methods purposes and values of warfare as practiced by the major pre Columbian societies and shows how warfare affected the rise of the state
