Corrective Vision Explorations In Moral Theology:

Corrective Vision Richard A. McCormick, 1994 Essays linking Roman Catholic tradition and American cultural moral issues in the last fifty years **Refined Consequentialism** Patrick Andrew Tully, 2006 Refined Consequentialism critically examines the moral vision offered by the late Richard A McCormick the premier American Catholic moral theologian of the post Vatican II era Taking a philosophical approach to a debate carried on primarily by moral theologians the author presents a forceful case that McCormick's brand of proportionalism belongs in the ranks of consequentialist moral theories In doing so the author stakes out a clear position on one side of a crucial debate that goes to the heart of the Catholic and Christian moral tradition This book may serve as a text in both undergraduate and graduate courses that deal with contemporary Catholic and secular moral thought A broader public one interested in the history of moral theology and in the ethical theoretical underpinnings of the current debates within the churches on euthanasia supporting pro choice politicians and removal of nutrition and hydration from gravely ill patients will also find this book of great interest **The American Catholic Revolution** Mark S. Massa, S.J., 2010-09-14 In the 1960s the Second Vatican Council enacted the most sweeping changes the Catholic Church had seen in centuries In readable and compelling prose Mark S Massa tells the story of the cultural war these changes ignited in the United States a war that is still being waged today Suddenly one Sunday the mass as the faithful had always known it was different and so was the Church they had believed was timeless and unchanging Once the Church opened the door to change Massa argues it could not be closed again Skirmishes broke out over the proper way to worship Soon Catholics were bitterly divided over birth control abortion celibacy female priests and the authority of the Church itself As he narrates these turbulent events Massa takes us beyond stereotypes of liberals and conservatives offering new insights into the last fifty years of American Catholicism **The Principle of Subsidiarity in Catholic Social Thought** Simeon Tsetim Iber, 2010-11 The Principle of Subsidiarity in Catholic Social Thought Implications for Social Justice and Civil Society in Nigeria provides a theoretical and practical framework for a just vision of society It focuses on how support for individuals and social groups in Nigeria can foster the building of their communities through the practice of social justice Social justice will ensure the building of trust across ethnic lines challenge corruption encourage accountability and servant leadership protect minority tribes from larger ones and promote grassroots self help tribal communal religious and non governmental associations as agents of positive social change and development These dynamics interact within a healthy federal structure that respects its constituent parts for the common good This volume is recommended as a graduate text for courses in theology religious education and social philosophy and for all interested in promoting the common good Moral Theology in an Age of Renewal Paulinus Ikechukwu Odozor, 2003 This study offers a comprehensive survey of developments in moral theology since the Second Vatican Council The author discusses the call of the Council for the renewal of moral theology and the role the Council itself played in this renewal Odozor also explores the various issues and

controversies which have marked the discipline since the 1960s The dramatic changes and developments in moral theology during this period rival any in the history of the Church of Christian morality natural law scripture and ethics moral norms the Church's teaching authority virtue ethics and casuistry Odozor provides a constructive proposal for a common ground which makes these debates in moral discourse possible ethicists systematic theologians and anyone interested in Catholic cultural and intellectual history since Vatican II

Social Ethics in the Making Gary Dorrien, 2009-03-25 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self-styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award

Method and Catholic Moral Theology Todd A. Salzman, 1999 This work is an investigation of the ongoing methodical reconstruction of Catholic moral theology As such it is based on and honors the work of Norbert Rigali S J one of the most important contributors to this reconstruction The decisive break from the traditional manual approach to moral theology represented by Vatican II reoriented moral theology away from universal natural law morality based on the commandments to a morality based on specifically Christian sources This reorientation however was not an either/or but a both/and proposition Father Norbert Rigali S J has been an inspiration and a challenge to moral theologians working toward reconstruction The essays in this collection address four questions in the renewal movement an investigation of normative methods a clarification of sources an investigation of the tension between natural law morality and Christian ethics and/or morality and a combination of methodical insights of philosophy with traditional Christian sources in their investigation of biomedical ethical issues The contributors to the collection include Richard M Gula S S Joseph A Selling Bernard Hoose Mark O Keefe O S B James F Keenan S J Edward Collins Vacek S J Charles E Curran James J Walter Todd A Salzman Jean Porter Lisa Sowle Cahill and Richard A McCormick S J

McCormick and the Renewal of Moral Theology** Paulinus Ikechukwu Odozor,1995 In this study Odozor examines the American theologian Richard McCormick s thought and work in detail setting it against the backdrop of larger developments that have taken place within the church and the field of moral theology during the past 50 years **Reproductive Justice and the Catholic Church** Emily Reimer-Barry,2024-06-10 Pregnancy loss is profoundly complex ambiguous and alienating but telling women who have procured abortions that they are murderers and sinners is not the best way forward Magisterial teachings on abortion are too often presented as moral absolutes when in fact moral absolutism distorts the rich wisdom of the Catholic intellectual tradition This book initiates a new conversation about women s experiences of miscarriage stillbirth and abortion arguing that we need not approach these difficult life experiences in a simplistic way Dr Reimer Barry argues that both the pro life and pro choice movements make important and valuable claims yet each approach on its own is flawed Drawing on the framework of reproductive justice together with Catholic social teaching Dr Reimer Barry suggests a new way forward for abortion discourse that takes seriously the full human dignity of women and the intrinsic though not absolute value of prenatal life She argues that instead of thinking of the Church as a moral teacher with leaders in Rome or Washington DC dictating to the consciences of the faithful a better way to address the complexity of difficult pregnancy discernments would be to think of the Church as a community of support in the midst of and after difficult discernments a community that seeks justice together and implements structural reforms while also providing spiritual care to those in need What women deserve is justice *Catholic Moral Theology in the United States* Charles E. Curran,2008 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States **The Magisterium-theology Relationship** Anthony J. Figueiredo,2001 This study presents contemporary theological conceptions of the magisterium theology relationship in the United States as found in the writings of classical theologians and three elder statesmen of

theology Avery Cardinal Dulles Fr Francis Sullivan and the late Fr Richard McCormick It also examines the pronouncements of the U S Bishops both as a Conference and as individuals on this theme The work addresses such important issues as the relationship between theological reasoning and magisterial statement dissent the natural moral law the grades of Church teaching and the conditioning of dogma The study aims to determine the definitive foundation for a correct rapport between magisterium and theologians Models of Christian Ethics Michael E. Allsopp,2003 Michael Allsopp s Models of Christian Ethics examines in an objective manner the many fields and approaches to Christian ethics that have developed recently Church leaders religious educators and interested readers will find here a wealth of information on various types of modern ethical Christian systems Natural Law Feminist Evangelical Situational Theocentric and Liberational **New Catholic Encyclopedia** ,2003 **Psychology and American Catholicism** C. Kevin Gillespie,2001 Through a series of historical accounts this book offers a rare view of Roman Catholicism s 20th century encounters with American culture from the church s issues with experimental and clinical psychology to the assimilation of psychology s fund of knowledge **The Consistent Ethic of Life** Thomas A. Nairn,2008 Catholic ethicists assess the development reception and relevance of Cardinal Joseph Bernardin s writings on the consistent ethic of life The late Archbishop of Chicago Joseph Bernardin is best remembered for his seamless garment approach linking abortion capital punishment war and social justice and bringing insights from the New Testament and Catholic tradition to bear on the burning issues of our age Book jacket The Catholic Moral Tradition Today Charles E. Curran,1999 Charles E Curran s concise account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in major aspects of the Catholic moral tradition It condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its own rich history **The Month** ,1998 **Current Contents Arts and Humanities** ,1995
