### **Correspondance Rousseau Volume 37:**

The New Worlds of Thomas Robert Malthus Alison Bashford, Joyce E. Chaplin, 2017-11-07 This book is a sweeping global and intellectual history that radically recasts our understanding of Malthus's Essay on the Principle of Population the most famous book on population ever written or ever likely to be Malthus's Essay is also persistently misunderstood First published anonymously in 1798 the Essay systematically argues that population growth tends to outpace its means of subsistence unless kept in check by factors such as disease famine or war or else by lowering the birth rate through such means as sexual abstinence Challenging the widely held notion that Malthus's Essay was a product of the British and European context in which it was written Alison Bashford and Joyce Chaplin demonstrate that it was the new world as well as the old that fundamentally shaped Malthus's ideas

*Soul Machine* George Makari, 2015-10-22 A brilliant and comprehensive history of the creation of the modern Western mind *Soul Machine* takes us back to the origins of modernity a time when a crisis in religious authority and the scientific revolution led to searching questions about the nature of human inner life This is the story of how a new concept the mind emerged as a potential solution one that was part soul and part machine but fully neither In this groundbreaking work award winning historian George Makari shows how writers philosophers physicians and anatomists worked to construct notions of the mind as not an ethereal thing but a natural one From the ascent of Oliver Cromwell to the fall of Napoleon seminal thinkers like Hobbes Locke Diderot and Kant worked alongside often forgotten brain specialists physiologists and alienists in the hopes of mapping the inner world Conducted in a cauldron of political turmoil these frequently shocking always embattled efforts would give rise to psychiatry mind sciences such as phrenology and radically new visions of the self Further they would be crucial to the establishment of secular ethics and political liberalism Boldly original wide ranging and brilliantly synthetic *Soul Machine* gives us a masterful new account of the making of the modern Western mind

**Contextualizing Melodrama in the Czech Lands** Judith Mabary, 2020-10-12 The mention of the term melodrama is likely to evoke a response from laymen and musicians alike that betrays an acquaintance only with the popular form of the genre and its greatly heightened drama exaggerated often to the point of the ridiculous Few are aware that there exists a type of melodrama that contains in its smaller forms the beauty of the sung ballad and in the larger scale works the appeal of the spoken play This category of melodrama is one that surfaced in many cultures but was perhaps never so enthusiastically cultivated as in the Czech lands The melodrama varied greatly at the hands of its Czech advocates While the works of Zdeněk Fibich and his contemporary Josef Bohuslav Foerster a composer best known for his songs remained closely bound to the text those of conductor/composer Otakar Ostrčil reveal a stance that privileged the music and given their creator's orchestral experience are more reminiscent of the symphonic poem Fibich in his staged works and Josef Suk composer violinist and Dvořák's son-in-law in his incidental music reflect variously late nineteenth century Romanticism the influence of Wagner and early manifestations of Impressionism In its more recent guise

the principles of the staged melodrama reside quite comfortably in the film score Judith A Mabary's important volume will be of interest not only to musicologists but those working in Central and East European studies voice studies European theatre and those studying music and nationalism Human Nature and the French Revolution Xavier Martin, 2003-12 What view of man did the French Revolutionaries hold Anyone who purports to be interested in the Rights of Man could be expected to see this question as crucial and yet surprisingly it is rarely raised Through his work as a legal historian Xavier Martin came to realize that there is no unified view of man and that alongside the official revolutionary discourse very divergent views can be traced in a variety of sources from the Enlightenment to the Napoleonic Code Michelet's phrases Know men in order to act upon them sums up the problem that Martin's study constantly seeks to elucidate and illustrate it reveals the prevailing tendency to see men as passive giving legislators and medical people alike free rein to manipulate them at will His analysis impels the reader to reevaluate the Enlightenment concept of humanism By drawing on a variety of sources the author shows how the anthropology of Enlightenment and revolutionary France often conflicts with concurrent discourses

**Enlightenment and Pathology** Anne C. Vila, 1998 If moods are as contagious as colds and wickedness as debilitating as a bad diet inquiries into assorted discourses in 18th century France still have much to tell Author Anne Vila shows that multiple junctures between the body and the mind promoted a steady commerce of speculation and discussion between science and the social salons of the time 9 illustrations **Problems and Methods of Literary History** André Morize, 1922

**Smith College Studies in Modern Languages**, 1925 **Rousseau's Socratic Aemilian Myths** Madeleine B. Ellis, 1977 Rousseau's Critique of Science Jeff J. S. Black, 2009 In answer to its four guiding questions it concludes that Rousseau's thesis is based on his understanding of the nature of the interaction of reason and vanity that Rousseau's system originates in introspection and is established by a non historical method of analysis and synthesis that the Discourse is an indispensable part of Rousseau's system because it spells out the beginnings of this analysis and the conclusions of this synthesis and through the limitations of its arguments points to the entire extent of his system and that as a result Rousseau's critique of science has much to teach us about the dangers involved in our political commitment to scientific progress and about the ways in which the future happiness of mankind might be secured BOOK JACKET **Catalogues de librairies** Calmann Lévy, 1895 **Contributions in Languages and Literatures**, 1928 **Mélanges d'histoire littéraire et de philologie offerts à M.
