Correspondance Rousseau Volume 26:

Modes of Play in Eighteenth-Century France Fayçal Falaky, Reginald McGinnis, 2021-11-12 Collecting diverse critical perspectives on the topic of play from dolls bilboquets and lotteries to writing itself this volume offers new insights into how play was used to represent and reimagine the world in eighteenth century France In documenting various modes of play contributors theorize its relation to law religion politics and economics Equally important was the role of play in plays and the function of theatrical performance in mirroring and often contesting our place in the universe These essays remind us that the spirit of play was very much alive during the Age of Reason providing ways for its practitioners to consider more serious themes such as free will and determinism illusions and equivocations or chance and inequality Standing at the intersection of multiple intellectual avenues this is the first comprehensive study in English devoted to the different guises of play in Enlightenment France certain to interest curious readers across disciplinary backgrounds **British Museum**
