Correspondance Rousseau Volume 32:

The New Worlds of Thomas Robert Malthus Alison Bashford, Joyce E. Chaplin, 2017-11-07 This book is a sweeping global and intellectual history that radically recasts our understanding of Malthus's Essay on the Principle of Population the most famous book on population ever written or ever likely to be Malthus's Essay is also persistently misunderstood First published anonymously in 1798 the Essay systematically argues that population growth tends to outpace its means of subsistence unless kept in check by factors such as disease famine or war or else by lowering the birth rate through such means as sexual abstinence Challenging the widely held notion that Malthus's Essay was a product of the British and European context in which it was written Alison Bashford and Joyce Chaplin demonstrate that it was the new world as well as the old that fundamentally shaped Malthus's ideas

Late Antique Letter Collections Cristiana Sogno, Bradley K. Storin, Edward J. Watts, 2019-11-19 Bringing together an international team of historians classicists and scholars of religion this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity ca 300-600 c e Each chapter addresses a major collection of Greek or Latin literary letters introducing the social and textual histories of each collection and examining its assembly publication and transmission Contributions also reveal how collections operated as discrete literary genres with their own conventions and self-presentational agendas This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth fifth and sixth centuries
