Dare To Be Scared:

Double-dare to be Scared Robert D. San Souci, 2006 DeWayne's friend is acting creepy and DeWayne needs to get away fast. Because in *Double Dare to Be Scared* being a regular kid doesn't mean you're safe. And having friends is even less of a guarantee. Robert D. San Souci, author of *Dare to Be Scared*, has spun another thirteen original tales to keep night lights burning across the country. There's something for every brave reader as stories range from campfire grabbers to unsettling thrillers and combine elements of folklore and pop culture. Black and white scratchboard illustrations by David Ouimet complement the macabre mood of the collection. If *Dare to Be Scared* thrilled you or if you're a newcomer who likes to be spooked, read on. We double dare you to be scared. What's creepier than being lost in the woods all alone? How about being lost in those woods and sensing that you're not alone? Robert D. San Souci, popular author of *Dare to Be Scared*, has spun another thirteen masterful tales to keep nightlights burning across the country. Fans of his first book will be thrilled to find not only the same spirit of scary fun but even deeper, darker twists and surprises. Newcomers will discover something for every daring palate with stories that range from campfire grabbers to unsettling chillers and combine elements of folklore and pop culture. *Dare to Be Scared* Robert D. San Souci, 2003 THIRTEEN ORIGINAL TALES TO CHILL AND THRILL

Dare to be Scared Robert D. San Souci, 2003 Thirteen short stories about ghosts, monsters, spirits, and other scary creatures will give the reader thrills and chills. **Triple-dare to be Scared** Robert D. San Souci, 2007 A collection of thirteen diverse scary short stories for young readers including fantasy, science fiction, and ghost tales. *Dare to Be Scared* 4 Robert D. San Souci, 2009 A collection of 13 tales of terror. *Unlearning Shame* Devon Price, PhD, 2024-02-06 Learn to identify and combat Systemic Shame: the feeling of self-hatred and disempowerment that comes from living in a society that blames individuals for systemic problems with this invaluable resource from the social psychologist and author of *Unmasking Autism*. Stop doomscrolling and read this book. You'll feel better. I promise. Celeste Headlee, journalist and bestselling author. Systemic Shame is the socially engineered self-loathing that says we are solely to blame for our circumstances. It tells us that poverty is remedied by hard-working people pulling themselves up by their bootstraps, that marginalized people are personally responsible for solving the problem of their own oppression, and that massive global crises like climate change can be solved with individual action. Feeling overwhelmed? That's your problem too. The more we try and ultimately fail to live up to impossible societal standards of moral goodness, the more shame we feel, and the more we retreat into isolation and despair. Social psychologist Dr. Devon Price knows firsthand the destructive effects of Systemic Shame: he experienced shame and self-hatred as he grappled with his transgender identity, feeling as if his suffering was caused by his own actions rather than systems like cissexism. And it doesn't just end with internal feelings of anguish. It causes us to judge other people the same way we fear being judged, which blocks us from seeking out the acceptance and support we need and discourages us from trying to improve our communities and our relationships. In *Unlearning Shame*, Dr. Price explores how we can deal with

those hard emotions more effectively tackling the societal shame we've absorbed and directed at ourselves. He introduces the antidote to Systemic Shame: expansive recognition, an awareness of one's position in the larger social world and the knowledge that our battles are only won when they are shared. He provides a suite of exercises and resources designed to combat Systemic Shame on a personal, interpersonal, and global level through rebuilding trust in yourself, in others, and in our shared future. By offering a roadmap to healing and a toolkit of actionable items, *Unlearning Shame* helps us reject hopelessness and achieve sustainable change and personal growth. *Pizza and Taco: Dare to Be Scared!* Stephen Shaskan, 2023-06-27. Flashlights Check Scary movies Check Ghost Peppers. Pizza and Taco are ready to prove they're brave as can be in their latest graphic chapter book. Nothing scares these besties or so they say. Pizza and Taco aren't afraid. To prove it, they dare each other to be scared. Dark closets and scary movies are a piece of cake, kind of. They're ready for the ultimate test: Ghost Pepper hunting. Pizza and Taco are sure they won't get scared; they made a list after all. This hilarious young graphic novel with chapters will tickle the funny bones of kids ages 5-8 and bolster their reading confidence. Young graphic chapter books are a great step on the way to graphic novels and longer chapter books. Readers will also love the first five books in the series: *Who's the Best?*, *Best Party Ever*, *Super Awesome*, *Comic Too Cool*, *for School Rock Out*. **Mrs. Halliburton's Troubles** Mrs. Henry Wood, 1895. **The Heiress Bride** Rebecca Hagan Lee, 2018-02-05. *The Summoning - Book 1 in the Gatekeepers Series* Norah Wilson, Heather Doherty, Wilson Doherty, 2011-04-27. All is not well in Chthonic City. Maine People are anxious, sleepless. Road rage is on the rise, and the ERs overflow with domestic and workplace violence. Why? Because the citizens of Chthonic City are having recurring terrifying nightmares about demons rising to walk among them, and they're snapping. In fact, demons ARE rising. Slowly. One at a time, to dwell unnoticed among us as they multiply our misery. And they're rising in Chthonic City, where the veil between the Chthonic and the Underworld, for which the City was named, though the meaning of the word has been long forgotten, and earthly reality is very thin. Demons cannot rise until a human soul is driven mad. Over the millennia, demons have crossed as they could, but never before has humanity been so stressed as it is now in the Western world. Never before have we been so starved for time, touch, meaning, purpose. Never have our circuits been so overloaded with gloom and doom, economically, environmentally, spiritually. Never before have the demons had such a vulnerable population. Scenting a chance to break free in numbers, they hurl themselves into our dreams, battering at our sanity. But these demons are not unopposed. In a crumbling church on the edge of town, an ancient Guardian has been watching and waiting. When the threat from the Underworld surges, the Guardian's job is to send out a call to a fresh crop, a cell of Gatekeepers, and train them to descend into the Chthonic through the dream state and do battle with the demons, slaying them there before they can cross the threshold. In Chthonic City, a new cell of Gatekeepers, teenagers, all has just been summoned. *The Short Stories* Herbert George Wells, 1929. **Changing Lives** Peter W. Greenwood, 2008-09-15. One of the most astonishing aspects of juvenile crime is how little is known about the impact of the policies and programs put

in place to fight it The most commonly used strategies and programs for combating juvenile delinquency problems primarily rely on intuition and fads Fortunately as a result of the promising new research documented in Changing Lives these deficiencies in our juvenile justice system might quickly be remedied Peter W Greenwood here demonstrates here that as crimes rates have fallen researchers have identified more connections between specific risk factors and criminal behavior while program developers have discovered a wide array of innovative interventions The result of all this activity he reveals has been the revelation of a few prevention models that reduce crime much more cost effectively than popular approaches such as tougher sentencing D A R E boot camps and scared straight programs Changing Lives expertly presents the most promising of these prevention programs their histories the quality of evidence to support their effectiveness the public policy programs involved in bringing them into wider use and the potential for investments and developmental research to increase the range and quality of programs
