Ball, 2023-04-22 This is a recommended series on all counts Janny Wurts author of Wars of Light and Shadow and coauthor of the Empire trilogy Allegra Contessa of Marsina wanted nothing to do with politics Unfortunately the cardinals the mages and the demons all had other plans This box set contains the complete The Dark Abyss of Our Sins series including three novels and two short stories The Demons We See Society was rocked when the Cathedral appointed Allegra Contessa of Marsina to negotiate the delicate peace talks between the rebelling mage slaves and the various states Not only was she a highborn mage she was a nonbeliever and a vocal objector against the supposed demonic origins of witchcraft Demons weren t real she d argued and therefore the subjection of mages was unlawful That was all before the first assassination attempt That was before Allegra heard the demonic shrieks All before everything changed Now Allegra and her personal guards race to stabilize the peace before the entire known world explodes into war with not just itself but with the abyss from beyond So much for demons not being real The Nightmare We Know Allegra had tried compromise and all she had to show for her work was a crater in the side of a mountain She had tried peace and that just made the rebellion worse She had seen a demon with her very eyes and that hadn t been enough to move the cardinals into action But despite all this never had she thought they would try to murder her When General Bonacieux shows up at the Cathedral to demand she be turned over for public execution the cardinals waver Instead of submitting Allegra declares her own war freedom for all mages As new demon marks open on Orsini soil Allegra takes a stand against the very people who gave her power For as Captain Stanton Rainier said they would only get her over his dead body So much for peace The Sins We Seek Walter Cram had taken root amongst the very people who would see him burn But after all he had done they still needed him to hunt a rogue mage So he would stay and help his enemies For now Captain Stanton Rainier stood between the demons and the innocent more than once now As secrets revealed themselves and as he questioned everything he d been told Stanton must accept that he is a good man one of principle who will protect the innocent with his body and sword no matter the consequences For when Allegra makes a rather innocuous inquiry into

the origins of magic she sets off a series of events that will shake more than individual faith but the very foundations of the Cathedral They all knew there would never be peace without truth but in that hunt for knowledge all they found was betrayal and some of it amongst their very own

The Dark Abyss of Time Paolo Rossi,1993 Deep Time Noah Heringman,2023-01-03 How the concept of deep time began as a metaphor used by philosophers poets and naturalists in the eighteenth and nineteenth centuries In this interdisciplinary book Noah Heringman argues that the concept of deep time most often associated with geological epochs began as a metaphorical language used by philosophers poets and naturalists of the eighteenth and nineteenth centuries to explore the origins of life beyond the written record Their ideas about the abyss of time created a way to think about the prehistoric before it was possible to assign dates to the fossil record Heringman examining stories about the deep past by visionary thinkers ranging from William Blake to Charles Darwin challenges the conventional wisdom that the idea of deep time came forth fully formed from the modern science of geology Instead he argues it has a rich imaginative history Heringman considers Johann Reinhold Forster and Georg Forster naturalists on James Cook s second voyage around the world who inspired by encounters with Pacific islanders connected the scale of geological time to human origins and cultural evolution Georges Louis Leclerc Comte de Buffon who drew on travel narrative antiquarian works and his own fieldwork to lay out the first modern geological timescale Blake and Johann Gottfried Herder who used the language of fossils and artifacts to promote ancient ballads and prehistoric song and Darwin s exploration of the reciprocal effects of geological and human time Deep time Heringman shows has figural and imaginative dimensions beyond its geological meaning
