The Long Night of Dark Intent Irving Horowitz, 2017-07-05 The Cuban Revolution of 1959 was a benchmark of triumph and a harbinger of tragedy to come Rather than herald a new era of Cuba joining the world community of nations as a paragon of democracy as many fervently hoped and believed it would it became instead a new stage in authoritarian rule in the Western hemisphere For more than a half century since then Cuba has been defined by the capacity of a single family to command and determine the fate of a nation and to do so with a minimum of opposition Incredibly even those professing adherence to democratic norms have been ready to forgive the dictator his excesses This volume explains the theory and practice of this absence of internal opposition and the persistence of external support for the Castro family and its entourage *The Long Night of Dark Intent* is chronological in order with the author indicating major points in each of the five decades covered The volume covers five centers of system analysis economics politics society military and ideology Who or what determines events and decisions is the stuff of real history It is precisely due to variability in causal chains in society that we have huge variance in levels of predictability The course of the Cuban Revolution gives strong support for such an approach to the Castro Era This is a unique unflinching account with a strong emphasis on the importance of U S policy decisions over time

Dark Intent Patricia Wallace, 1995-08 When Danielle s favorite student is kidnapped right before her eyes the police want to know exactly what she saw All she can recall is a dark shape inside a waiting van and the fleeting glimpse of a man s eyes Now with the victim s cries echoing in her mind Danielle knows she is in a race against time For the man she saw is a killer and he knows who she is

Dark Intent S. L. Katrijn, 2016-04-06 It was one of those things No one really knew about it What it was who was a part of it or how it worked They only knew that something was happening There was no way to define it not really No explanation for what they discovered yet it was there inexplicably right in front of them It was not a tangible thing rather a shift when needed a call to action The knowledge that something had to be done someone needed to do something Then something would happen or nothing would happen at least not that could be seen and things would change Those who appeared invincible would fall those who seemed unstoppable would continue no further and those who were behind the chaos those who were the most dangerous the most destructive would be stopped one more time in their never ending desire
