Dark Matter Of Words Absence Unknowing And Emptiness In Literature:

The Dark Matter of Words Timothy Walsh, 1998 Timothy Walsh's study of the function and significance of absence in literature demonstrates its centrality in terms of both literary technique and philosophical consequence. Textual gaps, narrative lacunae, and strategic vagueness, together with the uncertainties that such devices inevitably generate, have been essential elements of literature from Lao Tzu to Lawrence, from Chaucer to Faulkner and beyond. Walsh finds that poststructural approaches to indeterminacy tend to overlook the specific and productive roles that absence and uncertainty often play within the overall design of a work. The aesthetic generation of uncertainty, he demonstrates, is not a roadblock on the path to meaning or a sign of some radical and suppressed internal contradiction; rather, it is as basic an artistic aim as the desire to evoke sympathy, laughter, or outrage. Coining the phrase "structured absence" to explain a central tenet in his discussion of the mechanics of uncertainty, Walsh analyzes various literary devices and tropes involved in generating a felt sense of absence and a purposeful uncertainty. Structured absences, he demonstrates, combine to form intricate patterns and networks which explain how the dynamic potential of uncertainty can increase exponentially through a deft orchestration of absence. Walsh argues that the use of absence in works of art of silence, shadow, blankness, and void is a principal means by which the inherent biological limitations of human consciousness and of human language are encoded in aesthetic constructs. Because of the limitations of our senses and because we often are more attuned to what lies beyond the threshold of perceptual limits, the lacunae in artistic works represent attempts to replicate the real and inescapable limits of human experience.

Afterlives of Abandoned Work Matthew Harle, 2018-12-27 *Afterlives of Abandoned Work* considers the relevance of unfinished projects to literary history and criticism, looking beyond famous posthumous work to investigate the abandoned everyday, from scrapped plans and rejected ideas to half-written novels or unfinished artistic works. It traces how the reading of abandoned creative endeavor, whether arriving in the form of a rejection letter, a disagreement with a collaborator, or the simple act of walking away from one's desk, can change the way we think about cultural production, the creative process, and the intellectual construction of everyday life. Over five distinct journeys through a variety of archives, from major research libraries to the unique collections of individual enthusiasts, Matthew Harle draws surprising connections between literary studies, media studies, and visual arts, exploring unfinished projects from Thomas Pynchon, Muriel Spark, B.S. Johnson, Harold Pinter, and others. Rooted in literary criticism, *Afterlives of Abandoned Work* reads unbuilt buildings, unfilmed screenplays, and unpublished novels and radio sketches as forms of text that can help us consider the enduring fragmentation and anecdotal construction of cultural form, as well as expand literary criticism's approach to the archive.

Dramaturgies of Love in Romeo and Juliet Jonas Kellermann, 2021-09-30 Bringing together current intermedial discourses on Shakespeare, music, and dance with the affective turn in the humanities, *Dramaturgies of Love in Romeo and Juliet* offers a unique and highly innovative transdisciplinary discussion of unspeakable love in one of the most famous love stories in literary history.

the tragic romance of Romeo and Juliet Through in depth case studies and historical contextualisation this book showcases how the woes that no words can sound of Shakespeare s iconic lovers nevertheless have found expression not only in his verbal poetry but also in non verbal adaptations of the play in 19th century symphonic music and 20th and 21st century theatre dance Combining methodological approaches from diverse disciplines including affect theory musicology and dance studies this study opens up a new perspective onto the artistic representation of love defining amorous emotion as a generically transformative constellation of dialogic performativity To explore how this constellation has become manifest across the arts this book analyses and compares dramatic musical and choreographic dramatisations of love in William Shakespeare s early modern tragedy French composer Hector Berlioz s dramatic symphony *Roméo et Juliette* 1839 and the staging of Berlioz s symphony by German contemporary choreographer Sasha Waltz for the Paris Opera Ballet 2007 Chapters 1 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
