Dark Mirror:

Dark Mirror Diane Duane, 2012-12-11 One hundred years ago four crewmembers of the U S S Enterprise™ crossed the dimensional barrier and found a mirror image of their own universe populated by nightmare duplicates of their shipmates Barely able to escape with their lives they returned thankful that the accident which had brought them there could not be duplicated or so they thought But now the scientists of that empire have found a doorway into our universe Their plan is to destroy from within to replace a Federation Starships with one of their own Their victims are the crew of the U S S Enterprise NCC 1701 D who now find themselves engaged in combat against the most savage enemies they have ever encountered themselves

Black Mirror and Critical Media Theory Angela M. Cirucci, Barry Vacker, 2018-10-31 Black Mirror is The Twilight Zone of the twenty first century Already a philosophical classic the series echoes the angst of an era a civilization and consciousness fully engulfed in the 24 7 media spectacle spanning the planet With clever plots and existential themes Black Mirror presents near futures where humans collide with technology and each other tomorrows that might arrive in five years or five minutes Featuring scholars from three continents and ten nations Black Mirror and Critical Media Theory is an international collection of critical media theory applied to one of the most intellectually provocative TV shows of our time and the all too real conditions that inspire it Drawing from thinkers such as Michel Foucault Jean Baudrillard Guy Debord Marshall McLuhan and Paul Virilio the authors reverse engineer Black Mirror by probing the ideas meanings and conditions embedded in the episodes This book is organized around six key topics reflected and explored in Black Mirror human identity surveillance culture spectacle and hyperreality aesthetics technology and existence and dystopian futures

The Dark Mirror Louis Joseph Vance, 1921 **The Moral Uncanny in Black Mirror** Margaret Gibson, Clarissa Carden, 2020-11-05 This erudite volume examines the moral universe of the hit Netflix show Black Mirror It brings together scholars in media studies cultural studies anthropology literature philosophy psychology theatre and game studies to analyse the significance and reverberations of Charlie Brooker s dystopian universe with our present day technologically mediated life world Brooker s ground breaking Black Mirror anthology generates often disturbing and sometimes amusing future imaginaries of the dark side of ubiquitous screen life as it unleashes the power of the uncanny This book takes the psychoanalytic idea of the uncanny into a moral framework befitting Black Mirror s dystopian visions The volume suggests that the Black Mirror anthology doesn t just make the viewer feel on the surface a strange recognition of closeness to some of its dystopian scenarios but also makes us realise how very fragile wavering fractured and uncertain is the human moral compass

Theology and Black Mirror Amber Bowen, John Anthony Dunne, 2022-04-14 Black Mirror Netflix s dystopian anthology probes what it means to be human in a technological world While the show raises interesting if not disturbing questions it refrains from giving answers putting the onus on viewers to continue the conversation Accordingly Theology and Black Mirror engages questions and prominent themes in the show with resources from the Christian tradition including the

academic disciplines of biblical studies theology philosophy and ethics *Black Mirror and Philosophy* David Kyle Johnson, 2019-12-03 A philosophical look at the twisted high tech near future of the sci fi anthology series Black Mirror offering a glimpse of the darkest reflections of the human condition in digital technology Black Mirror the Emmy winning Netflix series that holds up a dark digital mirror of speculative technologies to modern society shows us a high tech world where it is all too easy to fall victim to ever evolving forms of social control In Black Mirror and Philosophy original essays written by a diverse group of scholars invite you to peer into the void and explore the philosophical ethical and existential dimensions of Charlie Brooker's sinister stories The collection reflects Black Mirror's anthology structure by pairing a chapter with every episode in the show's five seasons including an interactive choose your own adventure analysis of Bandersnatch and concludes with general essays that explore the series broader themes Chapters address questions about artificial intelligence virtual reality surveillance privacy love death criminal behavior and politics including Have we given social media too much power over our lives Could heaven really one day be a place on Earth Should criminal justice and punishment be crowdsourced What rights should a cookie have Immersive engaging and experimental Black Mirror and Philosophy navigates the intellectual landscape of Brooker's morality plays for the modern world where humanity's greatest innovations and darkest instincts collide Interconnection of the Wisdoms of Sages and Worthies The Ultimate Meaning of Dao De Jing Zhang Jiankun, DARK MIRROR TONI. BUNNELL, 2018 Humanity in a Black Mirror Jacob Blevins, Zahi Zalloua, 2023-01-03 The presentation of technology as a response to human want or need is a defining aspect of Black Mirror a series that centers the transhumanist conviction that ontological deficiency is a solvable problem The articles in this collection continue Black Mirror's examination of the transhuman need for plenitude addressing the convergence of fantasy the posthuman and the dramatization of fear The contributors contend that Black Mirror reveals both the cracks of the posthuman self and the formation of anxiety within fantasy's empty yet necessary economy of desire The strength of the series lies in its ability to disrupt the visibility of technology no longer portraying it as a naturalized unseen background affecting our very being at the ontological level without many of us realizing it This volume of essays argues that this negative lesson is Black Mirror's most successful approach It examines how Black Mirror demonstrates the Janus like structure of fantasy as well as how it teaches unteaches and reteaches us about desire in a technological world *The Dark Mirror* Louis Joseph Vance, 1920 **Dark Mirror** Craig Shaw Gardner, 2004-04-05 In his two hundred years and more on Earth Angel has seen his share of imitators Some have been kindly misguided people intrigued by the business of being a private investigator Others have been not so kindly if equally misguided people drawn by the lure of the undead unlife But he's never encountered a true double until now Enter Angel the Second And Fred 2.0 And Wesley Redux And so on A steady parade of perfect clones arrives at Angel Investigations none of them looking for help They want the original models dead And if Angel Lorne and the others can't band together to find out where the replicas are coming from and why a murder

spree that starts in their lobby might spread to the entire city But how do you defeat an opponent who knows your thoughts your battle plans your doubts your darkest fear How is Angel going to defeat himself *Dark Mirror* Bryan
