Dark of the Center Line Schuy R. Weishaar, 2016-03-25 Abraham Jacobsen is misfit for this world His peculiar gifts have cursed him with a past of good deeds he cannot escape with dreams and visions he cannot explain with a future as stone set as the etchings on a grave marker Now just as he has found a suitable place to loose his haunted thoughts in the outer blanks of rural Illinois Abraham finds himself the prime suspect in the murder of a local girl He is edged in upon by a priest who wants to see him canonized an ancient vigilante group with ties to the county s founding fathers the dead girl s farmer father and local law enforcement In his roving Abraham has burned up the road of life in both directions scorching and scarring as many as he has helped or healed And the journey has only taken him deeper within the dark of the center line into a country nothing world of fields farms and roads a place that seems peopled with his own inner demons and bad memories But does the dark of the center line lead somewhere too

The Dark of the Soul: Psychopathology in the Horoscope Liz Greene, 2023-07-12 Disturbed psychological states have baffled both religion and medicine for as long as human beings have existed Despite the explorations of modern psychology we are no closer to understanding these expressions of human suffering than we were a thousand years ago Although it can offer no solutions astrology can provide many insights into why some individuals respond to conflict and unhappiness by retreating from life and why do others respond with savagery toward their fellows This is a reprint of the CPA Press original The three seminars in this book use astrological perspectives to explore a spectrum of extreme psychological states from the condition known as

psychopathy to the collective mechanism of scapegoating as much a pathology as any diagnosed mental illness Astrologers often avoid confronting the issues of madness and human destructiveness and political correctness has made it even more difficult to face such issues honestly and without sentiment or hypocrisy But only by exploring the roots of what we call madness can we find any positive and creative approach to the mystery of why some individuals fail to cope constructively with life's challenges This book will sometimes shock and disturb but it is an invaluable resource for any practicing astrologer concerned with the dilemma of human suffering and any lay person wishing to understand how astrology can contribute to our comprehension of human behaviour
