**The Architecture under King Ludwig II - Palaces and Factories** Andres Lepik, Katrin Bäumler, 2018-09-10  
Ludwig II of Bavaria 1864-1886 is more internationally known for his royal palaces than hardly any other regent of the 19th century. They are the symbol of a personal architectural vision which to this day fascinates people from all over the world. However, the fame of his palaces has eclipsed other construction activities in the Kingdom of Bavaria: urban developments, hospitals and schools, theatres and museums, but also factories, railway stations, apartment blocks, churches and synagogues were created under his regency. This book for the first time sheds light on the broad architectural activities in this epoch. Essays and overview illustrations of the building projects of the time provide insights into the diversity of the then building culture and at the same time open up a new perspective on the royal palaces.

**The Hohenzollerns and the Nazis** Stephan Malinowski, 2025-01-30  
The shocking true story of the German monarchy's collaboration with the Nazis, an award-winning bestseller in Germany. AWARDED THE GERMAN NON FICTION PRIZE 2022. Malinowski's work is a near masterpiece relating a story not synthesised in this way before and about which any number of self-serving myths exist. Simon Heffer Daily Telegraph: The disappearance of the Hohenzollern family from the history of Germany in November 1918, as the Kaiser fled into Dutch exile, is one of the most startling rapid instances of a once all-powerful royal family becoming almost overnight irrelevant and marginal. Except this is not exactly what happened. Stephan Malinowski's German bestseller is an extraordinary work of recovery. It suited both the Weimar Republic and then the Third Reich to view the Hohenzollerns with contempt, and yet the royal family's hatred of the former and approval of the latter were for millions of Germans a significant factor in their own view of their country and its government. With forensic and often shocking detail, Malinowski shows that

far from being ridiculous marginal figures the Hohenzollerns lay at the heart of Germany's ongoing nightmare. Despite formally losing power the members of the royal family remained prominent catastrophically allowing many other conservative Germans to stay distanced from the new republic and to eventually betray conservative traditions and values. Battered from both left and right the Republic collapsed in 1933 in part because conservative forces fearful of both Communism and Fascism had abandoned their own principles just as much as the leading members of former royal family had who were themselves beguiled by and fooled by Hitler. This is an important and shocking book as well as a devastating picture of an inadequate and trivial royal family painfully underequipped to fulfil its role.

**Go-Betweens for Hitler** Karina Urbach, 2015-07-24 This is the untold story of how some of Germany's top aristocrats contributed to Hitler's secret diplomacy during the Third Reich providing a direct line to their influential contacts and relations across Europe especially in Britain where their contacts included the press baron and Daily Mail owner Lord Rothermere and the future King Edward VIII. Using previously unexplored sources from Britain Germany the Netherlands the Czech Republic and the USA Karina Urbach unravels the story of top level go betweens such as the Duke of Coburg grandson of Queen Victoria and the seductive Stephanie von Hohenlohe who rose from a life of poverty in Vienna to become a princess and an intimate of Adolf Hitler. As Urbach shows Coburg and other senior aristocrats were tasked with some of Germany's most secret foreign policy missions from the First World War onwards culminating in their role as Hitler's trusted go betweens as he readied Germany for conflict during the 1930s and later in the Second World War. Tracing what became of these high level go betweens in the years after the Nazi collapse in 1945 from prominent media careers to sunny retirements in Marbella the book concludes with an assessment of their overall significance in the foreign policy of the Third Reich.
