derechos básicos de los migrantes analiza cómo ellos vivieron la pandemia de la COVID 19 y muestra posibles soluciones políticas que podrán mejorar su bienestar y su salud A través de un enfoque interseccional este libro evidencia una problemática creciente de exclusión social en el sector de la salud el cual debe dar una respuesta apropiada a sus poblaciones y al mismo tiempo enfrentar una nueva realidad migratoria Esto no se puede limitar al aspecto regional sino que debe verse acompañado de marcos de cooperación internacional que asuman este fenómeno como un tema indispensable e ineludible en las políticas de salud global
