The Politics of Field Research Jaber F Gubrium, David Silverman, 1989-09 What can or should social research offer to funding agencies to social groups to the researcher and to the subjects of the research How does research in the field differ from other forms of social research In *The Politics of Field Research* an international team of distinguished researchers draw on their extensive fieldwork experience to address these and other fundamental questions They explore the political and philosophical context of social field research in general and examine its role and influence in such fields of study as advertising service policy and management Moreover the contributors investigate the ways in which social research is used in the field through detailed examples including community care therapeutic communities and green political movements *The Politics of Field Research* will interest those concerned with social theory and qualitative methods in a wide range of disciplines There is much of interest in Strong and Dingwall s chapter It presents a thoughtful analysis of the present state of sociology Papadakis provides a very interesting discussion of different modes of involvement of researchers with new social

movements and the implications of these for the various models of the relationship between researcher and research that have been offered in the literature This is a book that raises important issues and introduces some interesting ideas about the current crisis facing sociology

Reviewing Sociology The editors have done a good job in getting their contributors to write in terms of a consistent set of themes so that there is less of the divergence that characterizes many collections There is also little doubt that the book as a whole raises many often uncomfortable issues about research practice and relevance

Sociology I recommend this volume to any reader interested in the nature and use of social scientific research in western society I found the analytic level of individual articles to be consistently high the writing clear and the eclectic subject matter often absorbing The authors concern with qualitative ethnography their use of case materials and their consistent emphasis on reflexive inquiry particularly on the quality of power relations which define limit or shape ethnographic action in a post enlightenment era enhances the relevance of the collection for all social scientists in general and anthropologists in particular

NEXUS Canadian Journal of Anthropology Analyzing Field Reality Jaber F. Gubrium, 1988-03 Analyzing Field Reality provides a new way of thinking about the analysis of fieldwork that will aid researchers in many disciplines The book is not about the mechanics of fieldwork but about how to convey the field's everyday realities and its members common philosophical engagement it provides the researcher with a methodology for understanding meaning in the field

Aging, Self and Community Jaber F. Gubrium, Kathy Charmaz, 1992 With articles reprinted from the Journal of Aging this book focuses on ageing the self and community Topics discussed include human action and its place in theories of ageing the impact of emotional support for single women and old people's organizations as a context for ageing

Semiotica, 1988 **Semiotica** the Journal of the International Association for Semiotic Studies features articles reporting results of research in all branches of semiotic studies and in depth reviews of selected current literature in the field

Ethnomethodological Sociology Jeff Coulter, 1990 **Ethnomethodological Sociology** presents some of the classic papers in ethnomethodology together with the most important recent contributions It includes a clear introduction and a comprehensive 80 page bibliography It contains a significant range of ethnomethodological work spanning 20 years The volume exhibits the theoretical power and philosophical significance of this domain of sociological enquiry Concerned to elucidate in fine detail the formal properties of human conduct in situ ethnomethodologists have made great progress in specifying how members of society pursuing their diverse practical purposes manage to construct the intelligibility and orderliness of their practical affairs in methodical and formally analysable ways This collection effectively documents that progress

Mental Health Nursing Elaine Anne Pasquali, Helen Margaret Arnold, Nancy DeBasio, 1989 Personal Sociology Paul C. Higgins, John M. Johnson, 1988-02-18 In this volume eight essays by well known sociologists explore the personal experiences of social scientists their unique ways of doing sociology and the relationship between sociological theory and its application In each chapter the contributors integrate their sociological expertise with their personal lives and prove that sociological

understanding and personal experience can and do mesh Personal Sociology is a novel presentation that truly humanizes the practice and field of sociology
