**Description and Comparison in Cultural Anthropology** Alfred Harris, 2018-02-06 The Lewis Henry Morgan Lectures are intended to commemorate both the man and his work the latter being viewed as having provided an admirably broad and substantial base for anthropologists of later generations to build upon as they have done and continue to do in diverse ways Professor Goodenough's work in the past and in this book particularly emphasizes the vitality and fruitfulness of Morgan's contributions Not only do these lectures carry forward Morgan's interests in kinship they reflect as well his concern for comparative studies undertaken with the aim of ultimately understanding mankind Moreover Professor Goodenough has elucidated recent developments in the collection analysis and presentation of cultural data in ways that make it easier for all of us to see how his methods in themselves specialized can broaden and deepen our understanding of culture and of man Morgan himself a pioneer in method would surely have been an attentive auditor and discussant at Professor Goodenough's Lectures and in his seminars and the less formal events in which he participated while at Rochester and to which he contributed so much This volume is an expanded version of the Lewis Henry Morgan Lectures delivered at the University of Rochester April 2 to 11 1968 Alfred Harris was a professor emeritus of anthropology at the University of Rochester He served as the chair of the anthropology from 1964 1971 and he was well known for being the editor of the Lewis Henry Morgan Lectures

**The Cultural Analysis of Kinship** Richard Feinberg, Martin Ottenheimer, 2001 In the mid 1970s David M Schneider rocked the anthropological world with his announcement that kinship did not exist in any culture known to humankind This volume provides a critical assessment of Schneider's ideas focusing particularly on his contributions to kinship studies and the implications of his work for cultural relativism Schneider's deconstruction of kinship as a cultural system sounded the death knell for a certain kind of kinship study At the same time it laid the groundwork for the re emergence of kinship studies as a centerpiece of anthropological theory and practice Now a mainstay of cultural studies Schneider's conception of cultural relativism revolutionized thinking about kinship family gender and culture For feminist anthropologists his ideas freed kinship from the limitations of biology providing a context for establishing gender as a cultural construct Today his work bears on high profile issues such as gay and lesbian partners and parents surrogate motherhood and new reproductive technologies Contributors to The Cultural Analysis of Kinship appraise Schneider's contributions and his place in anthropological history particularly in the development of anthropological theory

Situating Schneider's work and influence in relation to major controversies in the history of anthropology and of kinship studies they examine his important insights and their limitations consider where his approach might lead and offer alternative paradigms Inspiring many with his keenly critical mind and willingness to flout convention discomfiting others with his mercurial temperament David Schneider left an ineradicable mark on his field These frank observations on the man and his ideas offer a revealing glimpse of one of modern anthropology's most complex and paradoxical figures

Anthropology, by Comparison Richard G. Fox, Andre Gingrich, 2002-09-26 Comparison has long been the backbone of the discipline of anthropology But recent developments in anthropology including critical self reflection and new case studies sited in a globalized world have pushed comparative work aside For the most part comparison as theory and method has been a casualty of the critique of grand theory and of a growing mistrust of objectivist hard science methodology in the social sciences Today it is time for anthropology to resume its central task of exploring humankind through comparison using its newfound critical self awareness under changing global conditions In *Anthropology By Comparison* an international group of prominent anthropologists re visits re theorizes and re invigorates comparison as a legitimate and fruitful enterprise The authors explore the value of anthropological comparison and encourage an international dialogue about comparative research While rejecting older universalist comparative methods these scholars take a fresh look at various subaltern and neglected approaches to comparison from their own national traditions They then present new approaches that are especially relevant to the globalized world of the twenty first century Every student and practitioner of anthropology and the social sciences will find this thought provoking volume essential reading *Anthropology by Comparison* is a call to creative reflection on the past and productive action in the present a challenge to anthropologists to revitalize their unique contribution to human understanding *Anthropology by Comparison* is an indispensable overview of anthropology's roots and its future with regard to the comparative study of humankind
