## **Desegregating The Dollar:**

Desegregating the Dollar Robert E. Weems, 1998-02 This book provides a comprehensive portrait of African American's complex relationship with consumerism and capitalism in the United States      **Desegregating the Dollar** Robert E. Weems, 1998-02 Despite African Americans' nearly 500 billion collective annual spending power surprisingly little attention has been devoted to the ways U.S. businesses have courted black dollars in postslavery America Desegregating the Dollar presents the first fully integrated history of black consumerism during the last century      Madison Avenue and the Color Line Jason Chambers, 2011-08-24 Until now most works on the history of African Americans in advertising have focused on the depiction of blacks in advertisements As the first comprehensive examination of African American participation in the industry Madison Avenue and the Color Line breaks new ground by examining the history of black advertising employees and agency owners For much of the twentieth century even as advertisers chased African American consumer dollars the doors to most advertising agencies were firmly closed to African American professionals Over time black participation in the industry resulted from the combined efforts of black media civil rights groups black consumers government organizations and black advertising and marketing professionals working outside white agencies Blacks positioned themselves for jobs within the advertising industry especially as experts on the black consumer market and then used their status to alter stereotypical perceptions of black consumers By doing so they became part of the broader effort to build an African American professional and entrepreneurial class and to challenge the negative portrayals of blacks in American culture Using an extensive review of advertising trade journals government documents and organizational papers as well as personal interviews and the advertisements themselves Jason Chambers weaves individual biographies together with broader events in U.S. history to tell how blacks struggled to bring equality to the advertising industry      **The Western Journal of Black Studies**, 2000

Wilson, 2000-01-19 This pioneering book explores the implications of postmodernism for the black community through an analysis of the civil rights and neighborhood movements in Birmingham Grounded not only in class struggle the Civil Rights Movement was tied to the politics of racial identity the neighborhood movement to the politics of place identity Bobby M. Wilson critically examines these two movements which together transformed race and place in Birmingham He shows that although the civil rights struggle and neighborhood empowerment served a valuable purpose they cannot now overcome post-Fordist forces of domination and exclusion Successful political movements the author argues must venture beyond the politics of identity and difference based on race and neighborhood      The Journal of African
