Smith, Randall Williams, Steve Hoffius, Marcia Kunstel, Pat Stevens, Frank Kunstel, Charles Hardy, Mark Pinsky, Linda Williams, David Nevin, Robert Bills, Pamela George, Meyer Weinberg, Leon Hall, James Lyons, Kenneth Clark, Hayes Mizell, Before it was over they fired him from the little schoolhouse at which he had taught devotedly for ten years And they fired his wife and two of his sisters and a niece And they threatened him with bodily harm And they sued him on trumped up charges and convicted him in a kangaroo court and left him with a judgment that denied him credit from any bank And they burned his house to the ground while the fire department stood around watching the flames consume the night And they stoned the church at which he pastored And fired shotguns at him out of the dark But he was not Job and so he fired back and called the police who did not come and kept not coming Then he fled driving north at eighty five miles an hour over country roads until he was across the state line Soon after they burned his church to the ground and charged him for having shot back that night with felonious assault with a deadly weapon and so he became an official fugitive from justice In time the governor of his state announced they would not pursue this minister who had caused all the trouble and said of him Good riddance **California. Zellner, 2019-01-22 Every editor of the Policy Studies Review Annual brings a unique perspective to bear in selecting articles to be included This perspective reflects varying methodological and disciplinary judgments varying judgments on what the field of policy studies or policy analysis is and where it should be going and varying judgments regarding the quality of articles which are or claim to be in the field Because it is the objective to assemble a set of essays which are both interesting and topical there will be varying perspectives on these matters as well The volume clearly reflects the editors perspectives They are explicit about these judgments and perspectives and then let the content of the volume speak for itself First we are both economists As a result the general topics selected and the articles chosen under each topic tend to emphasize economics more than the other disciplines involved in the field of policy studies sociology psychology political science law and so on This emphasis is clearly seen by comparing the contents of volume I edited by Stuart Nagel a political scientist and volume II edited by Howard Freeman a sociologist with that of this volume Second the editors have a particular view of what policy studies or policy analysis is That view has several aspects In the first place they feel that the field of policy studies or policy analysis must

define itself and this definition will develop as researchers do just what the title of the field says study or analyze policies A corollary of this view is that we place a low weight on papers which discuss the policy process or reforms in policy making relative to papers which analyze a policy a policy proposal or a problem which leads to calls for policy action Resources in Education ,1977 **The Phi Delta Kappan** ,1971 Readings on Equal Education ,1996 **Congressional Record** United States.
