Desegregation Resistance Readiness:

Desegregation : Resistance and Readness ,1958 **Desegregation: Resistance and Readiness. By M.M. Tumin with the Assistance of Warren Eason [and Others].** Melvin Marvin Tumin,1958 **Militant Mediator** Dennis C. Dickerson,2021-12-14 During the turbulent 1960s civil rights leader Whitney M Young Jr devised a new and effective strategy to achieve equality for African Americans Young blended interracial mediation with direct protest demonstrating that these methods pursued together were the best tactics for achieving social economic and political change Militant Mediator is a powerful reassessment of this key and controversial figure in the civil rights movement It is the first biography to explore in depth the influence Young s father a civil rights leader in Kentucky had on his son Dickerson traces Young s swift rise to national prominence as a leader who could bridge the concerns of deprived blacks and powerful whites and mobilize the resources of the white America to battle the poverty and discrimination at the core of racial inequality Alone among his civil rights colleagues Martin Luther King Jr Roy Wilkins James Farmer John Lewis and James Forman Young built support from black and white constituencies As a National Urban League official in the Midwest and as a dean of the School of Social Work at Atlanta University during the 1940s and 1950s Young developed a strategy of mediation and put it to work on a national level upon becoming the executive director of the League in 1961 Though he worked with powerful whites Young also drew support from middle and working class blacks from religious fraternal civil rights and educational organizations As he navigated this middle ground though Young came under fire from both black nationalists and white conservatives **The Civil Rights Movement and the Logic of Social Change** Joseph E. Luders,2010-01-25 Social movements have wrought dramatic changes upon American society This raises the question Why do some movements succeed in their endeavors while others fail Luders answers this question by introducing an analytical framework that begins with a shift in emphasis away from the characteristics of movements toward the targets of protests and affected bystanders and why they respond as they do This shift brings into focus how targets and other interests assess both their exposure to movement disruptions as well as the costs of conceding to movement demands From this point diverse outcomes stem not only from a movement s capabilities for protest but also from differences among targets and others in their vulnerability to disruption and the substance of movement goals Applied to the civil rights movement this approach recasts conventional accounts of the movement s outcome in local struggles and national politics and clarifies the broader logic of social change *The Race of Ratings* Lawrence Hazelrigg,Brenda Hughes,2025-07-24 Our book presents results of an analysis of the time series of ratings during the lifetime of each of 400 prime time US televised comedies and dramas 1963 to 1994 based on more than 13 000 time stamped observations of show specific ratings The research was motivated substantively by one question was the process that generated ratings per show uniform across all shows or was it differentiated by the racial composition of the show s main cast members In order to answer that question we first had to construct a model of the actual ratings time series of

each show using a uniform basic model that allowed show to show differences on multiple variables Then second cross show differences of process parameters plus the compositional variables were estimated using both linear mainly OLS regression and non linear mainly spectral analysis techniques The presentation is gradual and narrative as well as mathematical Analytic techniques are explained in simple terms The book is therefore a manual of instruction in the analysis of time series data as well as a research monograph reporting the results of one substantive study

Civilities and Civil Rights William H. Chafe, 1981 The sit ins at a Woolworth's lunch counter in Greensboro launched the passive resistance phase of the civil rights revolution This book tells the story of what happened in Greensboro it also tells the story in microcosm of America's effort to come to grips with our most abiding national dilemma racism **Princeton Alumni Weekly**, 1958 **Special Study of Racial Discrimination in the Political, Economic, Social and Cultural Spheres** United Nations. Sub-commission on Prevention of Discrimination and Protection of Minorities, Hernán Santa Cruz, 1966

Commitment to Teaching: Readings in the foundations of education James Champion Stone, Frederick W. Schneider, 1965 *A Catholic Case Against Segregation* Joseph Eugene O'Neill, 1961 **Reading Guide** University of Virginia. School of Law, University of Virginia. Law Library, 1957

Integration Vs. Segregation Hubert Horatio Humphrey, 1964 *Bad Old Days* Alan J. Levine, 2017-07-28 For many especially those on the political left the 1950s are the bad old days The widely accepted list of what was allegedly wrong with that decade includes the Cold War McCarthyism racial segregation self satisfied prosperity and empty materialism The failings are coupled with ignoring poverty and other social problems complacency conformity the suppression of women and puritanical attitudes toward sex In all the conventional wisdom sees the decade as bland and boring with commonly accepted people paralyzed with fear of war Communism or McCarthyism or all three Alan J Levine shows that the commonly accepted picture of the 1950s is flawed It distorts a critical period of American history That distortion seems to be dictated by an ideological agenda including an emotional obsession with a sentimentalized version of the 1960s that in turn requires maintaining a particular misleading view of the post World War II era that preceded it Levine argues that a critical view of the 1950s is embedded in an unwillingness to realistically evaluate the evolution of American society since the 1960s Many and not only liberals and those further to the left desperately desire to avoid seeing or admitting just how badly many things have gone in the United States since the 1960s *Bad Old Days* shows that the conventional view of the 1950s stands in opposition to the reality of the decade Far from being the dismal prelude to a glorious period of progress the postwar period of the late 1940s and 1950s was an era of unprecedented progress and prosperity This era was then derailed by catastrophic political and economic misjudgments and a drastic shift in the national ethos that contributed nothing or less than nothing to a better world *Attitude and Behavior in a Middle Class Biracial Neighborhood* Eleanor K. Caplan, 1962 *American Sociological Review*, 1959-02 Includes sections Book reviews and Periodical literature
