Design and Feminism Joan Rothschild,Alethea Cheng,1999 The distinction between the spaces considered public and private or work and home is becoming more blurred Our streets parks dwellings and tools are designed to a one size fits all standard and the responses of the design community to meet diverse needs have been mixed at best Design and Feminism offers feminist critiques of these inadequate design standards and suggest ideas projects and programs for change

An Introduction to Design and Culture Penny Sparke,2025-10-31 An Introduction to Design and Culture provides a comprehensive guide to the changing relationships between design and culture from 1900 to the present day with an emphasis on five main themes Design and consumption Design and technology The design profession Design theory Design and identities This fifth edition extends the traditional definition of design to embrace its more recent manifestations which include service design user interface design co design and sustainable design It also discusses the relationship between design and the new media and the effect of globalisation and transnationalism on design Most importantly it looks at its contents through a new lens which acknowledges the post industrial post colonial post modern and arguably post design climate of the twenty first century and the challenges that it poses Taking a broadly chronological approach Professor Sparke employs historical methods to show how these themes developed through the twentieth century and into the twenty first century and played a role within modernism post modernism and beyond Over a hundred illustrations are used throughout to demonstrate the breadth of design and examples among them design in Modern China the work of Apple Computers Ltd and design thinking are used to elaborate key ideas The new edition remains essential reading for undergraduate and postgraduate students of design studies cultural studies and visual arts

work and home is becoming more blurred As a result innovative designs are needed to meet the challenges of our ever changing environment Our streets parks dwellings and tools are designed to a one size fits all standard and the responses of the design community to meet diverse needs have been mixed at best Design and Feminism offers feminist critiques of these inadequate design standards and suggest ideas projects and programs for change The interdisciplinary essays reflect the writers diverse fields architecture planning industrial and graphic design and architectural urban and design history Essays cover such subject as rethinking the American city graphic design and the urban landscape working at home theories of women and design and a trio of essays on industrial designs A review essay of the literature in these fields the first of its kind rounds out the collection Contributors are Amelia Amon Wendy E Brawer Cheryl Buckley Sue Cavanagh Alethea Cheng Roberta M Feldman Etain Fitzpatrick Alice T Friedman Dolores Hayden Ghislaine Hermanuz Barbara Knecht Ellen Lupton Maggie Mahboubian Francine Monaco Nancy Perkins Victoria Rosner Joan Rothschild Susana Torre Lynne Walker and Leslie Kanes Weismann

Functionalism Revisited Jon T. Lang, Walter Moleski, 2010 Lang and Moleski argue here that the model of function and the concept of a functional building that we have inherited from the 20th century Modernists is limited in scope They propose a new model which responds to observations about the inadequacy of current ways of thinking about functionalism in architecture and urban design Copiously illustrated the book discusses in detail each function of buildings and urban environments

It was Another Skin Sian Supski, 2007 This study examines the meanings of the kitchen to women who were wives mothers housewives and homemakers in the 1950s in Western Australia It uses qualitative data collected from oral history interviews with migrant and Australian born women The book provides insight to women s everyday lives and analyses practices such as cooking ironing budgeting shopping dishwashing and decorating which provide women with power Central themes of this study explore the meaning of home and kitchen design and analyses how practices of the kitchen inform women s multiple identities It also shows how dominant discourses such as domesticity femininity and efficiency reinforce gendered notions of women s work in the kitchen Moreover the book examines points of resistance it shows that women perform their everyday practices design their kitchens and decorate them in ways that perhaps were not always intended by domestic science experts designers architects and manufacturers GoogleBooks
