in Italy on the part of the architects artists and designers who lived through its emergence and who to some extent invented it. The exhibition with around 400 works chosen from among the most representative of artistic research and the culture of design in Italy in the twentieth century is arranged chronologically with four sections that define the different periods in the philosophical economic and aesthetic discourse that has accompanied the recent history of art and design in Italy. The survey brings to light the philosophies of design and the aesthetics that found a strong and dialectical expression right through the last century in Italy and that are at the root of the country's characteristic and lively cultural debate between art and design. This catalogue is published in conjunction with *Il modo italiano Italian Design and Avant garde in the 20th Century* an exhibition produced by the Montreal Museum of Fine Arts in collaboration with the Royal Ontario Museum Toronto and the Mart Museo di Arte Moderna e Contemporanea di Trento e Rovereto. **Mod to Memphis** Anne Jeanette Watson, 2002.
