## **Designing Democracy Eu Enlargement And Regime Change In Postcommunist Europe:**

**Designing Democracy** G. Pridham, 2005-05-11 Designing Democracy is the first systematic and in depth study of the effects of the EU's democratic conditionality originally set out in the Copenhagen conditions of 1993 on the new political systems of Central and Eastern Europe Using new material drawn from extensive elite interviews in several of these countries as well as in Brussels the book throws much light on how far the EU enlargement process has really strengthened these new post Communist democracies following their transitions in the 1990s

**The Foreign Policy of the European Union** Federiga Bindi, 2010-03-01 In a relatively short time the European Union has become one of the world's most powerful and important bodies Its critical role in international affairs extends to several different areas economics culture the environment and of course international security and foreign affairs This important volume explains and evaluates EU foreign policy in all its confusing dimensions Is there really any such thing as European Union Foreign Policy If so what is it What are its goals and priorities and how effective is it How do outsiders perceive EU foreign policy and what are the ramifications of those views Those are just some of the questions this book tries to answer In order to draw the most comprehensive picture possible of EU foreign policy Federiga Bindi and her contributors dissect both horizontal and vertical issues Vertical concerns focus on particular geographic regions such as the EU's foreign policy toward Africa and Asia and its relations with the United States Horizontal issues explore wider crosscutting themes that help explain the EU's foreign policy choices and operations such as decisionmaking processes and procedures European self identity and core priorities such as peace democracy and human rights Contents Foreword by Giuliano Amato former foreign minister and prime minister of Italy Part I The New Tools of EU Foreign Policy II US EU Relations after the Elections III EU Relations with the Rest of the Americas IV Africa and Asia V The EU and Its Neighbors VI The EU the Mediterranean and the Middle East VII Promoting Values and Models Abroad VIII Conclusions Assessing EU Foreign Policy

Democratization and the European Union Leonardo Morlino, Wojciech Sadurski, 2010-05-31 This book examines in depth the impact of the EU on aspects of the quality of democracy in eight selected post communist countries Considering both the political and legal aspects of the dynamics among institutions and focussing on inter institutional accountability the book analyses how constitutional designs have been effectively implemented to achieve this and to what extent this was the result of EU action In order to make a comparative assessment of the EU on democracies the book features detailed case studies according to their different status vis vis the EU including older new member states Poland and Hungary newer new member states Romania and Bulgaria potential candidates Albania and Serbia and neighbour and remote neighbour states Ukraine and Armenia Each chapter addresses a range of dimensions and most relevant domains of inter institutional accountability that is executive legislative relationships constitutional justice decentralisation and regionalism and the role of ombudsman or other relevant authorities Seeking to assess how important the role of the EU has been in influencing the modes and characteristic of democracies and

fundamental rights established in these regions this book will be of interest to students and scholars of comparative politics  
EU politics Post communist studies and democratization studies      **The Democratic Transition of Post-Communist**

**Europe** M. Petrovic,2015-12-04 Tracing both economic and political developments through the prism of history as well as more recent developments this book casts new light on the role of communist history in setting the different regional successes in post communist transition      **Democratizing Central and Eastern Europe** Luca Tomini,2015-05-22 At first it was believed that accession to the EU would have a positive effect on the process of democratization in former communist countries However over time it became clear that difficulties with the democratic system endured in a number of these countries This book reconsiders the results of the process of democratization in Central and Eastern Europe and evaluates the nature and effectiveness of the Europeanization process It comparatively explores the process of democratic consolidation and accession to the European Union in Poland Slovakia and Bulgaria Using these case studies the book assesses the impact of the EU on the accountability and integrity of governments in this part of Europe This text will be of key interest to scholars and students of democratization studies European studies EU studies transition studies area studies and international relations      *Party Politics in Central and Eastern Europe* Tim Haughton,2013-09-13 What impact has EU

membership had on party politics in Central and Eastern Europe Although there is an emerging body of literature on the Europeanization of political parties most of these accounts focus exclusively on Western Europe Drawing on a range of qualitative and quantitative approaches including detailed studies of party programmes and manifestos analysis of the media semi structured interviews and expert surveys this collection provides not just conceptually informed but also empirically rooted analyses of party politics in Central and Eastern Europe during the first four years of EU membership In particular the contributions assess the impact of EU membership on parties internal balance of power the use of European issues in inter party competition the role of transnational party federations and the broader role the EU plays in party politics The findings not only shed light on the impact of EU membership on party organization and programmes they also inform broader debates concerning the dynamics fluidity and motors of party politics in Central and Eastern Europe This book was based on a special issue of Journal of Communist Studies and Transition Politics      **Central and Southeast European Politics since 1989**

Sabrina P. Ramet,2010-02-18 The only textbook to provide a complete introduction to post 1989 Central and Southeast European politics this dynamic volume provides a comprehensive account of the collapse of communism and the massive transformation that the region has witnessed It brings together 23 leading specialists to trace the course of the dramatic changes accompanying democratization The text provides country by country coverage identifying common themes and enabling students to see which are shared throughout the area giving them a sense of its unity and comparability whilst strengthening understanding around its many different trajectories The dual thematic focus on democratization and Europeanization running through the text also helps to reinforce this learning process Each chapter contains a factual

overview to give the reader context concerning the region which will be useful for specialists and newcomers to the subject alike

*A Quarter Century of Post-Communism Assessed* M. Steven Fish, Graeme Gill, Milenko Petrovic, 2017-02-09 This edited volume seeks to understand and explain the pattern of varying national and regional success in post communist political and economic transition across the post communist world Despite widespread hopes for the development of vigorous democratic political systems and vibrant market economies the outcomes of a quarter century of post communist transition in the countries of the former communist bloc in Eurasia have been widely variant Some have matched these hopes including becoming full members of the EU others have fallen far short with political and economic systems little changed from the communist era This collection with an internationally respected list of contributors addresses some of the pressing issues in political science and transition studies ranging from theoretical overviews to the more specific nitty gritty of contemporary politics

**European Integration and Transformation in the Western Balkans** Arolda Elbasani, 2013-09-02 The book investigates the scope and limitations of the transformative power of EU enlargement in the Western Balkans The extension of EU enlargement policy to the region has generated high expectations that enlargement will regulate democratic institution building and foster reform much as it did in Central and Eastern Europe However there is very little research on whether and how unfavourable domestic conditions might mitigate the transformative power of the EU This volume investigates the role of domestic factors identifying stateness as the missing link between the assumed transformative power of the EU and the actual capacity to adopt EU rules across the region Including chapters on Croatia Serbia Macedonia Albania Kosovo and Bosnia Herzegovina leading scholars in the field offer up to date comparative analysis of key areas of institutional and policy reform including state bureaucracy rule of law electoral management environmental governance cooperation with the International Court of Justice economic liberalization and foreign policy Looking to the future and the implications for policy change European Integration and Transformation in the Western Balkans provides a new theoretical and empirical focus on this little understood area The book will be of interest to scholars and students of EU politics comparative democratisation post communist transitions and Balkan area studies

**Structural Origins of Post-Yugoslav Regimes** Valentina Petrović, 2024-09-16 This analysis of the Yugoslav democratisation process explains the variation of regime outcomes within a structuralist framework Focusing on the post socialist world it goes beyond ethnicity and elite agency to bring the role of class and the state into discussions of third wave democracies Offering an in depth study of four post Yugoslav cases and relying on extensive field work it examines how civil society state structures and elite agency influence the trajectories of Croatia North Macedonia Serbia and Slovenia after the end of socialism The analysis also considers the impact of the European Union on domestic conditions The author argues that no single factor explains the occurrence of democracy It is instead the result of the combination of an autonomous civil society a non captured state and ruling elites willing to implement democratic reforms Concomitant with this the analysis provides evidence that the only sufficient condition for the

occurrence of democracy is non captured state structures State capacity therefore plays a central role in democratisation This book will be of interest to scholars and students of Eastern Europe Southeastern Europe the EU and democratisation as well as to policymakers and nongovernmental organisations **Acta Slavica Iaponica** ,2008 **Europeanisation and Democratisation** Roberto Di Quirico,2005 This collection of essays discusses the relation between Europeanisation and democratisation in new member states and neighbour countries The essays were presented at the Europeanisation and Democratisation The Southern European Experience and the Perspective for the New Member States conference held in Florence Italy in 2005 *Globalising Democracy* Peter J. Burnell,2006 Explores the intersection of two major themes globalization and the contribution that both domestic party politics and international party support make to democratization This volume shows what globalization means for domestic and international efforts to build effective political parties and competitive party systems in emerging democracies **The Normative Environment of European Integration** Józef Niznik,2008 The Democratization Process in Post-Dayton Bosnia and Herzegovina and the Role of the European Union Lejla Starčević-Srkalović,2010 The subject of this dissertation is the analysis of the democratization process in Bosnia and Herzegovina BiH following the Dayton Agreement in 1995 How and to what degree can the democratization process in BiH be discussed in light of existing democratization theories Using theoretical democratization approaches to identify independent variables that influence the democratization process in BiH the focus is on a full set of political institutions and institutional designs that are usually alleged to be important preconditions for the consolidation of democracy Within this framework the question of statehood the constitution making procedure and the resulting institutional framework and the role of international actors in the BiH context are highlighted Finally emphasizing the influence of international factors such as the role of the EU in the democratization process in post communist Europe the EU s influence on this process in BiH is closely examined The book examines the existing democratic structures and processes in BiH with the model of consociational democracy as a specific type of democracy Thereby the applicability and functionality of this model in BiH society is deeply analyzed Dissertation **Expanding Borders** ,2006 *Democratic Transition and Democratic Consolidation in Slovenia* Jure Vidmar,2008 The study examines the democratization in Slovenia and compares it to democratization processes elsewhere drawing patterns upon not only other post communist democratizations but also upon general patterns in other third wave democratizations The book begins with a theoretical overview the problem of defining democracy democratic transition and democratic consolidation It proceeds to an examination of the historical political and economic factors relevant for the democratization The transition is explained from Yugoslav Slovenian and external aspects where foundations for patterns in Slovenian democratization are sought The consolidation is examined on the institutional level and on the level of the actors In the concluding analysis the indicators of democratic consolidation are examined in a comparative perspective and applied to Slovenia *Political Elites in East Central Europe* Nicole Gallina,2008 This

monograph is a major survey of East Central European ECE political elites and concentrates on Czech Republic Slovakia Hungary and Poland It is grounded within classic elite theory slightly adapted to ECE necessities More practically the book examines political elite composition and identifies political elite fragmentation in ECE The author questions that East Central European political elites have incorporated democratic values and conduct The main argument is that there is a significant gap between the formal democratic ECE institutions and political elite behaviour This gap has different dimensions which are relevant at the domestic level and also cause problems at the EU level Ultimately the political elite institution gap questions democratic political achievements after 1989 In providing a major analysis of ECE political elite structure and conduct the book points to the most urgent challenges of ECE political systems the reform of the political elite From the content The Importance of Analysing ECE Elites Forms of Political Elite Formation and Activity Political Elite Fragmentation in ECE Elite Formation and Reproduction in East Central Europe Patterns of Political Elite Behaviour Influencing Political Elite Behaviour Institutional Change after 1989 The Relationship between Europeanisation and Euroscepticism Elite Systems in East Central Europe Case Studies Poland Czech Republic Slovakia Hungary Implications of Elite Attitudes for Europeanisation Political Elites Incapable Europeanisers
