Designing Utopia Michael H. Lang,1999 The influence of John Ruskin s vision of the Garden City small beautiful communities set in green open spaces **Designing Utopia** Michael H. Lang,1999 The influence of John Ruskin s vision of the Garden City small beautiful communities set in green open spaces **Civitas by Design** Howard Gillette,2010 The best study so far about the virtual collapse in the late twentieth century of South Jersey s largest city New York Times

Architectural Design and Ethics Thomas Fisher,2008-05-09 Architectural Design and Ethics offers both professional architects and architecture students a theoretical base and numerous suggestions as to how we might rethink our responsibilities to the natural world and design a more sustainable future for ourselves As we find ourselves on the steep slope of several exponential growth curves in global population in heat trapping atmospheric gases in the gap between the rich and poor and in the demand for finite resources Fisher lays down a theory of architecture based on ethics and explores how buildings can and do provide both social and moral dimensions The book also has practical goals demonstrating how architects can make better and more beautiful buildings whilst nurturing more responsible sustainable development Architectural Design and Ethics will prove an invaluable text not only to those in the architecture field but to anyone simply interested in the ethical issues surrounding our built environment **Philanthropy and the Construction of Victorian**

Women's Citizenship Andrea Geddes Poole,2014-01-01 This book uses Cons s and Cavendish s partnership and work as an illuminating point of departure for exploring the larger topic of women s philanthropic campaigns in late Victorian and Edwardian society **Paradise Planned** Robert A.M. Stern,David Fishman,Jacob Tilove,2013-12-03 Paradise Planned is the definitive history of the development of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United State and northern Europe and gradually proliferated throughout the world These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar train and automobile Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature Paradise Planned is the comprehensive encyclopedic record of this movement a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape Utopia Britannica Chris Coates,2001 Ruskin & Architecture Rebecca

Daniels,Geoffrey K. Brandwood,2003 John Ruskin exerted a powerful and pervading influence on architects and architecture in the nineteenth century and his legacy can still be felt today His highly individual and idiosyncratic prose encouraged the lay person to look and think about architecture and he covered strands as diverse as the choice of style the use of polychromy the relations between the workman and his work and even between politics and the arts In this book leading experts in Ruskin and architectural history re examine these and numerous other issues often providing wholly new insights into the

man his writings and his influence upon architecture and the cultural landscape of his day and since The essays that make up this substantial and richly illustrated book shed new and revealing light on the wide ranging and profound influence of this great writer and thinker on architecture

Ruskin in Perspective Carmen Casaliggi, Paul March-Russell, 2007 Moving laterally across John Ruskin's complete work this new anthology draws his ideas together around the common theme of perspective Grouped into three parts Art and Literature Aesthetics and Politics Geography and Landscape the essays examine Ruskin's critical intervention both within its own period and in relation to its contemporary legacy Drawing upon literary theory art criticism political social and cultural history and biographical studies the essays offer a new and exciting interdisciplinary approach to understanding the scale and relevance of Ruskin's thought Topics include the role of the reader in Ruskin's work Anglo-European encounters Ruskin's style and political influence national and cultural heritage the aesthetics of painting perspective and the sublime and the impact of geology and evolutionary theory upon Ruskin and nineteenth century culture Illustrated throughout with examples from Ruskin's own art work as well as the artists admired by him such as J M W Turner the anthology will be invaluable for readers interested not only in Ruskin as writer critic and commentator but also in his position within the changing currents of nineteenth and twentieth century intellectual thought This collection shows how Ruskin can still teach us to read and see It breathes enthusiasm and scholarly care in a way that will appeal to a wide range of readers I am very impressed by the wealth of illustration in the book which seems to me indispensable for an understanding of Ruskin's thought and its relevance to us The choice of contributors is harmonious and refreshing established authorities rub shoulders with rising scholars This really is an unusually vibrant well thought through and valuable collection on a key formative figure in the history of literature art and criticism Dr Sarah Wood University of Kent Ruskin studies are currently flourishing There is a wide ranging interest on both sides of the Atlantic reflected in the essays here by established European names as well as younger scholars The compilation is well focused which will give *Ruskin in Perspective* a distinctive character in its consideration of literature aesthetics and geography thereby appealing to a genuinely interdisciplinary audience Stephen Wildman Director and Curator The Ruskin Library Lancaster University

The End of the Street David Dobereiner, 2006 Knowing that global land uses require radical rethinking David Dobereiner looks at how development ideals can be translated into practical techniques that conserve natural resources take advantage of existing structures and improve the economic and social dimensions of a community while considering the financial realities that must be faced What needs to be done he believes is known and is technically feasible David Dobereiner was an associate professor of architecture at the Syracuse University department of architecture and has also served on design juries and given seminars and lectures at Harvard University MIT and the University of California Berkeley In 1990 he won an international design competition to build bioclimatic houses in the Canary Islands His team's submission was the only winning entry from the United States
