## **Desirable God Our Fascination With Images Idols And New Deities:**

**Desirable God?** Roger Burggraeve, 2003 The human fascination with images and the idolatry or idolization of images as the source of desire passion and terror is treated in this book The first part enters more deeply into religious idolatry past and present It treats the biblical the early Jewish as well as the Christian views on monotheism and the prohibition against images as source of authentic humanism or as source of intolerance and violence In the second part the focus shifts onto a number of contemporary profane idols and gods the nationalist fascination for one's own land and people and the fear or hate towards foreigners the rampant preoccupation with genetic health in a context of body culture and aestheticization of which the postmodern sport idols have become the great icons the current image and screen culture and all forms of audiovisual exorcisms and last but not least the ongoing process of economization and globalization with an expanding culture of branding logos

**The Uses of Idolatry** William T. Cavanaugh, 2024 When Max Weber wrote about the rationalization of modern Western society over a hundred years ago he could not have foreseen the lengths to which such rationalization has been taken in an Amazon warehouse or fulfillment center There poorly paid associates who are often temporary workers with few benefits scurry among the bins retrieving and packing just about anything that can be imagined A handheld device keeps track of their movements It directs them to the next item to pick and a timer starts 14 seconds to scan in the next item four aisles over for example The device warns them if they are falling behind and keeps track of their pick rate Falling behind calling in sick and other offenses can cost a worker their job so some associates have resorted to urinating in bottles to avoid taking bathroom breaks In January 2018 Amazon received patents on a wristband that can track a warehouse worker's arm movements

*Facing the Gods* Verity Jane Platt, 2011-07-28 This book explores divine manifestations and their representations not only in art but also in literature histories and inscriptions The cultural analysis of epiphany is set within a historical framework that examines its development from the archaic period through the Hellenistic world and into the Roman Empire

*Pagan Ethics* Michael York, 2015-08-05 This book is the first comprehensive examination of the ethical parameters of paganism when considered as a world religion alongside Christianity Islam Judaism Hinduism and Buddhism The issues of evil value and idolatry from a pagan perspective are analyzed as part of the Western ethical tradition from the Sophists and Platonic schools through the philosophers Spinoza Hume Kant and Nietzsche to such contemporary thinkers as Grayling Mackie MacIntyre Habermas Levinas Santayana etc From a more practical viewpoint a delineation of applied pagan ethics is then presented in connection with current moral issues such as same sex union recreational drugs environmental awareness abortion and terrorism Finally overviews of sectarian pagan ethics Shinto Santeria Heathenism Druidry Romuva Slavic Kemetism Classical and Wicca provide both the general and pagan reader with an understanding of the provocative range and differentiation of pagan ethical thought The book approaches the Western ethical tradition as an historical development and a continuing dialogue The novelty of this approach lies in its consideration of paganism as a legitimate

voice of religious spirituality rather than a satanic aberration or ridiculous childish behavior The book is aimed at both the contemporary Western pagan and anyone with an interest in the moral dilemmas of our times and the desire to engage in the global ethical discussion Among the more important features of the book are its presentation of a re evaluation of idolatry the notion of the virtue value the richness of the pagan tradition and the expansion of Western ethics beyond its Christian heritage

*Responsibility, God and Society* Johan de Tavernier, 2008 A generation of students at the Faculty of Theology of the K U Leuven have been introduced by Roger Burggraeve to the thoughts of Emmanuel Levinas 1905 1995 Levinas has been and still is for him a true master in thinking For Levinas responsibility is heteronomous because it does not start from the I but from the epiphany of the other as the face appealing to me not to kill but to promote him/her In and through the appeal of the face the difference between the other and me expressed in the irreducible alterity of the other is ethically speaking the appeal to the highest non indifference proximity without absorption As Levinas thinking carries on obvious Jewish Talmudic imprint Burggraeve was interested as to how the concept of responsibility can be connected to a biblically inspired ethic In which way can the Levinasian view on responsibility enhance a Christian anthropology and in particular that one articulated by Louvain personalism and in its turn inspired by a Christian anthropology so that it benefits from uniquely Christian accents In this Festschrift for Roger Burggraeve authors explore the theme of Responsibility God and Society in order to answer two questions What does Levinas ethic of responsibility have to offer Christian theology And vice versa what can Christian theology offer to contemporary ethical thought on personal relational and societal responsibility

America and Its Guns James E. Atwood, 2012-06-01 James Atwood contends that the thirty thousand gun deaths America suffers every year cannot be understood apart from our national myth that God has appointed America as the trustee of the civilization of the world and even Christ's light to the nations Because these purposes are noble and we are supposedly a good and trustworthy people violence is sometimes required and gives license to individuals to carry open or concealed weapons which save lives and can even be redemptive Atwood an avid hunter cautions that an absolute trust in guns and violence morphs easily into idolatry Having spent thirty six years as a Presbyterian pastor fighting against the easy access to firearms one of which took the life of a friend he uses his unique experience and his biblical and theological understanding to graphically portray the impact guns have on our society He documents how Americans have been deceived into believing that the tools of violence whether they take the form of advanced military technology or a handgun in the bedside stand will provide security He closes with a wake up call to the faith community which he says is America's best hope to unmask the extremism of the Gun Empire

**Fragile World** William T. Cavanaugh, 2018-05-22 In *Fragile World* Ecology and the Church scholars and activists from Christian communities as far flung as Honduras the Philippines Colombia and Kenya present a global angle on the global ecological crisis in both its material and spiritual senses and offer Catholic resources for responding to it This volume explores the deep interconnections for better and for worse between the global North and the global South and

analyzes the relationship among the physical environment human society culture theology and economics the integral ecology described by Pope Francis in *Laudato Si* Integral ecology demands that we think deeply about humans and the physical environment but also about the God who both created the world and sustains it in being At its root the ecological crisis is a theological crisis not only in the way that humans regard creation and their place in it but in the way that humans think about God For Pope Francis in *Laudato Si* the root of the crisis is that we humans have tried to put ourselves in God's place According to Pope Francis therefore A fragile world entrusted by God to human care challenges us to devise intelligent ways of directing developing and limiting our power      The Image of God in the Human Body John White,2008

 constituent un troisième événement crucial pour la pensée juive contemporaine Le sionisme et la création de l'état d'Israël
