Mills, Judith E. Paul, 1979 *Social Emotions and Their Influences* Huiyan Lin, Giorgio Coricelli, Chunliang Feng, Siyang Luo, Steven Young, 2023-06-06 The common dimensional model of emotion has emphasized that emotional information is generally processed from two dimensions valence from negative to positive and arousal from low to high Recently several theories have proposed that emotions also vary along a sociality dimension ranging from non social emotions i.e. basic biological drives to social emotions i.e. complex social interactions Specifically non social emotions e.g. fear are derived from incentives or aversive emotions that have direct physiological relevance whereas social emotions e.g. guilt are elicited within the context of social information processing or social cognition Multiple empirical studies have investigated the processing of non social emotions and the influences of these emotions on other cognitive processes However questions regarding social emotion processes and their

influences are still open For example little is known about psychological and neural mechanisms underlying different social emotions processes e g guilt shame love envy and pride the development and individual differences of social emotions or the influences of social emotions on social behaviors and decision making Therefore this Research Topic aims to gain a deeper understanding of how different social emotions are processed among different populations and how these social emotions influence other cognitive processes We aim to have a collection of studies which extend the theoretical technical and empirical knowledge about psychological and neural mechanisms underlying social emotions processes as well as the influences of these processes on other cognitive processes in particular on social decision making We encourage studies from different domains e g emotion behavioural economics and decision making implemented by different techniques e g behaviour electrophysiology neuroimaging and brain stimulations among different populations e g healthy adults children and elderly persons with psychological traits and personalities and psychiatric patients **Proteus** ,2000 Mental Hygiene ,1928 **The Century Dictionary** ,1889 *The Century Dictionary and Cyclopedia: The Century dictionary ... prepared under the superintendence of William Dwight Whitney* William Dwight Whitney,Benjamin Eli Smith,1903 **The Century Dictionary and Cyclopedia: The Century dictionary ... prepared under the superintendence of William Dwight Whitney ... rev. & enl. under the superintendence of Benjamin E.
